GENERAL STATEMENT

History

THE Alabama College, formerly known as the Alabama Girls Industrial School, was created by a bill introduced into the State Senate in 1892 by the Hon. Sol. D. Bloch, of Camden. The bill became a law in February, 1893, with the provision that the act should go into effect after January 1, 1895. On January 1, 1896, the school was located at Montevallo, Shelby County, and on October 12 of that year began its first session. The act changing the name to the Alabama Girls Technical Institute was approved by the Governor, February 20, 1911, and the School Code of October, 1919, approved September 26, 1919, changed the name to Alabama Technical Institute and College for Women. On September 9, 1923, the name was changed to Alabama College.

Alabama College is a standard college, granting the B.A., B.S., and B.Mus. degrees. In December, 1925, the college was admitted to full membership in the Southern Association of Colleges and Secondary Schools, and in January, 1928, it was admitted to membership in the Association of American Colleges.

The purpose of Alabama College, as set forth in the Alabama School Code, October, 1919, adopted 1907, is as follows:

"The college is established for the purpose of giving therein instruction in the liberal arts and sciences and in technical subjects suitable for women, and to this end the following academic and technical departments are established: 1. English, literature, expression; 2. Mathematics and astronomy; 3. History and political economy; 4. Education, psychology, sociology; 5. Ancient languages; 6. Modern languages; 7. Chemistry, physics, geology; 8. Biology, bacteriology, zoology; 9. Physiology, sanitation; 10. Agriculture, dairying, floriculture, horticulture; 11. Art, painting, manual training; 12. Home economics; 13. Vocal and instrumental music; 14. Commercial branches—stenography, accountancy, typewriting, secretarial practice. Other departments or subjects may be established from time to time by the trustees upon the recommendation of the president and faculty, that women may have the opportunity for general education and for special preparation for home-making, extension service, teaching, and for becoming self-supporting in trades and industries and in the business world."

Location

Montevallo is a picturesque village near the geographical center of the State. The unusually beautiful scenery of the surrounding country and the quiet, reposeful atmosphere of the place are, educationally speaking, valuable assets to the college. The campus of ninety-five acres is well situated in the highest part of the town.

Buildings and Equipment

The buildings comprise Palmer Hall, Bloch Hall, Reynolds Hall, Calkins Hall, Library, Nabors Hall, Storr's Residence, High School and Elementary Training School Buildings, Main Dormitory, Ramsay Hall, Hanson Hall, Peterson Hall, the President's House, the Power House, Laundry and Dairy.

Thomas Waverly Palmer Hall. This building was completed in February, and dedicated April 28, 1930. It contains the administration offices, a handsome auditorium which furnishes seating capacity for approximately sixteen hundred students, and one of the finest institutional pipe organs in the country.

Bloch Hall was completed, equipped, and used for the first time during the session of 1915-16. It is named in honor of Mr. Sol D. Bloch, of Camden, Alabama, who was the author of the bill establishing the college, and who served continuously as a member of the board of trustees from its organization to October 23, 1919.

Reynolds Hall was erected in 1851 when the Montevallo Male Institute was incorporated as a joint stock company. The lot was donated by Edmund King. In front of this building the men from Montevallo and the vicinity were mustered into service at the time of the War Between the States. There the regiment received the flag that the women of Montevallo made and presented it. After the war the Cumberland Presbyterians were unable to carry on this school, which they had bought; hence they turned their college over to one of their ministers. Reverend W. H. Meredith conducted here a high grade school for women for twenty years. When Alabama College was founded this building became its home, and a frame building in the shape of three sides of a square was added about 1900. This building was torn down when the new music hall was built in 1918. Reynolds Hall contains an auditorium, a gymnasium, part of the academic classrooms, the supply store, and college postoffice.

Calkins Hall was completed in 1917. It is of fire-proof construction containing the director's room, music classrooms, studios, practice rooms, and the beautiful recital hall. This building is devoted entirely to the teaching of music. It is of most unusual charm and permanence, from the carved stone entrance to the lovely concert room upstairs. It is named in memory of Charles Rendell Calkins, director of music 1913-1920.

The Library was completed during the session of 1922-23. It is a two-story brick building. The reading room, the main feature of the building, is 90 by 40 feet, a well lighted and beautiful room. The stacks, children's room, work room, and offices are conveniently placed with relation to the delivery room, which occupies the center of the building. The conference rooms are on the second floor. The library contains over 22,000 volumes and many pamphlets and periodicals, classified by the Dewey decimal system. About \$3,000 is spent on books each year.

Nabors Hall, an historic building on the campus, erected in 1818, is temporarily used for offices by the Sociology and Psychology Departments.

Storr's Residence. This building was located in the southeast corner of the campus. It has been moved and remodeled so that it serves as a home economics building for the Home Economics Department of the Training School.

High School Training School Building. In March, 1929, the junior and senior high schools, which have been housed for many years in Reynolds Hall on the college campus, were transferred to a new training school building which was erected through the co-operation of the County Board of Education, the State Board of Education and Alabama College. The new building contains thirteen rooms and houses all the work of the two high schools except the home economics work.

Elementary School Training School Building. This building, constructed by the Town of Montevallo and used for a number of years for a practice school, was deeded to Alabama College in 1928. It is a brick building containing nine rooms and a small auditorium and cafeteria.

Main Dormitory. This large brick building comprises three separate units, or dormitories, connected by cross halls. These three dormitories bear the honored names of distinguished teachers who have labored heroically for the institution for many years. The east wing, or unit, is called the Mary

Goode Stallworth Hall; the central wing, the Annie Kennedy Hall; the west wing, the Elizabeth Haley Hall. These halls contain the parlors, reception halls, dining halls, and rooms for five hundred boarding students. The building is lighted by electricity and heated by steam. Besides the fourteen exits and usual fire escapes, cylindrical "Kirker-Bender" fire escapes are provided, these latter being placed at the rear of the Stallworth and Haley Halls.

Ramsay Hall. This dormitory is named for Mrs. Janet Erskine Ramsay, the mother of the public-spirited and philanthropic citizen, Mr. Erskine Ramsay, of Birmingham. Mr. Ramsay gave \$100,000 to be applied on the erection of the dormitory. This building was begun early in 1925 and was available in September for the session 1925-26. It is magnificent throughout, thoroughly modern in every respect, and adequately equipped. It has sixty-six rooms and accommodates approximately one hundred twenty students.

Hanson Hall. This dormitory is named for Mrs. Weenona Hanson, the wife of Mr. Victor Hanson, publisher of the Birmingham News-Age-Herald, who gives two thousand dollars in scholarships at Alabama College each year, and who contributed a substantial sum for the erection of this building, which was completed in March, 1929. It is a thoroughly modern, fire-proof structure, well appointed in every way and equipped with Windsor pattern all-steel furniture. It has ninety-six rooms and accommodates approximately two hundred students.

Peterson Hall, the infirmary, named in honor of Dr. Francis Marion Peterson, who served the college wisely and faithfully for seven years as its second president, is situated about fifty yards from the Main Dormitory in a quiet place. It has accommodations for thirty-six patients.

WAPI Broadcasting Station. Through an agreement between the Alabama Polytechnic Institute, the University of Alabama, and Alabama College, the radio broadcasting station WAPI, at Birmingham, is now jointly owned and controlled by the three institutions. Alabama College has a remote control station in Palmer Hall and is thereby able to broadcast programs from the college campus.

Supply Store. The supply store, on the ground floor of Reynolds Hall, is for the convenience of the students. It furnishes, at about cost, anything needed in their school work. In connection with the supply store is the college post office, where mail is given out twice daily.

Gymnasium. Physical Education includes activities in the gymnasium, with its exercise room, lecture room and office, in the out-door swimming pool with its dressing rooms and showers, on the four tennis courts, on the three outdoor and one indoor basket ball courts, on the two volley ball courts and the two large fields which are used for soccer, hockey, field ball, speedball, baseball, etc.

Recreation Room. The large room on the second floor of the Main Dormitory, formerly used as the library, has been converted into a recreation room for the students. The furnishing of this room, to the value of \$700, was generously donated by Loveman, Joseph & Loeb, of Birmingham.

Water Supply. The College has an adequate water supply for drinking and sanitary purposes and for fire prevention. This water is secured from two springs and is stored in two tanks of thirty and of one hundred twenty thousand gallons capacity, respectively. From these tanks the water is distributed throughout the buildings.

Fire Protection. At convenient and accessible points within the building are located chemical fire extinguishers, in addition to an ample supply of fire hose. Outside the building nine fire plugs supply thirteen openings to which fire hose can be attached. Two fire hose carts, each containing five hundred feet of hose, are conveniently housed, so that in a very brief period of time several streams of water can be concentrated at any point in the event of such a necessity. Two fire drills are held each month.

LABORATORY EQUIPMENT

The **Biology and Bacteriology Department** occupies five rooms in Bloch Hall. The laboratories are equipped with compound microscopes, dissecting lenses, a supply of mounted slides, three sterilizers, two incubators, autoclave, hot air oven, Wasserman bath, and plant and animal specimens, together with the small equipment necessary to give courses in biology, botany, and bacteriology.

The **Chemistry and Physics Department** is located in the basement of Bloch Hall, occupying seven rooms in the north-east of this building.

Each laboratory is equipped with standard furniture consisting of Alberlene stone-top desks and side shelves for reagents. Hoods are supplied in the general and quantitative laboratories. A lecture room, accommodating forty-eight students, a stock room, and office space for instructors are also provided. Ample equipment and supplies are kept on hand for experiments in all courses offered in this department.

The **School of Home Economics** is located in Bloch Hall. Departmental facilities consist of four faculty offices; a student reading and social room; two lecture rooms; two clothing laboratories; a dining room and home service kitchen which are used for meal service; a household management and equipment testing laboratory; two eight-room home management houses, one at Montevallo and the other at Columbian, which provide opportunity for the students to live as a "family group" for a nine weeks' period and putting into practice the fundamental principles of homemaking under the direction and supervision of a home economics faculty member. These houses serve as laboratories for the home management courses. Experience in teaching is provided for all students preparing to teach home economics in high schools through the home economics departments of the Montevallo and Shelby County High Schools. These two programs are under the direct supervision of the home economics teacher trainers of Alabama College and both departments are approved by the State Division of Vocational Education. Each student is required to do nine weeks of student teaching under the careful direction and supervision of home economics teacher trainers of Alabama College.

SCHOLARSHIPS

I. GIFTS

1. **The Birmingham News Scholarships.** In 1925 the Birmingham News established a scholarship at Alabama College to cover actual expenses not in excess of five hundred dollars. One additional scholarship has been given each year since that time.

The conditions for these scholarships are as follows:

Applicant must be a graduate of a standard high school who has not attended college before. Application must be made to the Scholarship Department of the Birmingham News, not directly or indirectly to the college or its president. No outside pressure or influence must be brought to bear upon the college authorities. Certain papers are required to be filed with each application, and all papers must be filed together in one package addressed to the Scholarship Editor of the Birmingham News. These papers shall consist of a statement of high school record, a recommendation from the high school principal, another from the city or county superintendent of education, and at least two other letters from prominent citizens of the county, at least one of whom shall not be a teacher. These letters of recommendation must testify as to scholarship, deportment, character, general fitness for college work, and must clearly show that the applicant will not be able to enter college the following fall without outside help, such as is offered by these Birmingham News Scholarships. In addition, each applicant must furnish a certificate that her general health is good and that she should be able to attend college without impairment of health.

The beneficiaries of these scholarships sign no notes to repay this money, but each is expected to promise to pay to the college in after life at least the amount she received for her education, to be used for helping other worthy girls in their efforts to get a college education.

When beneficiaries are ready to begin making these payments, the college will establish a Birmingham News Scholarship Fund, and will use the money in accordance with this request. In this way permanent scholarships will be established and maintained.

2. **United Daughters of Confederacy Scholarships.** The Alabama Division of the United Daughters of the Confederacy has raised a fund of \$2,500 for the establishment of two

scholarships at Alabama College, known as the Virginia Clay Clopton Scholarship and the Sallie Jones Scholarship, and only the proceeds, \$200 annually, or \$100 each, can be used.

To be eligible for a State U. D. C. Scholarship a girl must be a resident of Alabama; a descendant of a worthy Confederate soldier; unable to complete her education without financial assistance; prepared to enter a college class; must take one of the technical courses; and must secure the endorsement of the Alabama Division U. D. C. Scholarship Committee. All applications must be sent to Mrs. L. M. Bashinsky, Troy, Alabama.

3. **Lizzie Crenshaw Memorial Scholarship.** Mrs. J. H. Crenshaw, former President of the Alabama Division of the United Daughters of the Confederacy, presented to Alabama College the sum of \$1,250 for the establishment of the Lizzie Crenshaw Memorial Scholarship. The interest on this sum, \$100 per annum, is to be awarded to some worthy girl on the same conditions as the other U. D. C. scholarships.

4. **Lucy Harper Hall Scholarship.** In 1927 Mrs. J. B. Hall, of Chicago, donated the sum of \$2,500, the income from which is to be used to provide two scholarships of \$75 each year at Alabama College.

5. **Linly Heflin Unit Scholarships.** Through the generosity of the Linly Heflin Unit of Birmingham two scholarships covering all college expenses were established in 1926. Additional scholarships have been provided each year so that for the 1930-31 session seven students were provided for by the Unit.

6. **Woodward Iron Company Scholarship.** Through the generosity of the Woodward Iron Company, of Woodward, a scholarship covering all college expenses was provided for the first time in the 1928-29 session.

7. **Alabama Contest Scholarships.** In the annual Inter-High School Meet, held at the college in March each year, the Birmingham Age-Herald gives a trophy in declamation for one year's tuition for private lessons in Expression. The college offers a second trophy covering tuition for two quarters for Expression. The college also awards two scholarships of \$50 each to the winner in Piano and the winner in Violin.

II. LOAN

1. **Alumnae Scholarship.** The Alumnae Association maintains a loan scholarship, the beneficiary of which is selected by the Association at the annual meeting in May.

2. **The Myrtle Brooke Scholarship.** This scholarship is a revolving fund of \$250, founded by the first year's social work students of Alabama College, available to prospective students in that particular field.

The founding of the scholarship is an effort on the part of these students to express their appreciation of one who has contributed much toward the development of scientific social work in the State of Alabama, and through whose wisdom and forethought the establishment of a Department of Social Work at Alabama College was made possible.

The Myrtle Brooke Scholarship Fund does more than pay tribute to the pioneer spirit of a teacher who is loved and admired. It commemorates the first training course for social workers in the State, as well as the first group of students to enter the course.

3. **College Club Scholarships.** The following loan scholarships are offered by the clubs: Castalian, one; Philomathic, one; Tutwiler, two. The beneficiaries are selected by the respective clubs, generally from their own membership.

4. **The Chattahoochee Collegians Club Scholarship.** This scholarship fund was raised through the efforts of the group of students at Alabama College from the Chattahoochee Valley. The initial sum for the first scholarship was raised in the summer of 1928. The value of the scholarship is \$250 per year.

5. **D. A. R. Scholarship.** In April, 1929, the Alabama Society Daughters of the American Revolution voted to place a \$250 senior loan scholarship at Alabama College. This scholarship is available only to seniors and was available for the first time during the 1929-30 session.

6. **Library Science Scholarships.** Mrs. Caroline P. Engstfeld of the Alabama Library Association announces two Library School Scholarships of one hundred dollars (\$100) each for Alabama College. The **Thomas D. Parke Scholarship** of one hundred dollars (\$100), given by Mrs. T. D. Parke of Birmingham, and the **Weenona White Hanson Scholarship** of one hundred dollars (\$100) given by Mrs. Victor Hanson of Birmingham.

7. **Sociology Loan Fund.** This fund was established during the summer of 1930. Mr. Ike Nathews, manager of the College Shoppe and the Dollar Store of Montevallo, generously gave the sum of \$250 to start the fund with the understanding that substantial additions would be made from time to time.

The purpose of the fund is "to aid students who have completed one or more years of college work and who cannot continue in school without help. Preference in loans shall be given those needing small amounts, it being the desire of the donor that as many as possible who have made a good beginning may be enabled to continue in school."

In consideration of the needs, and in appreciation of the patronage which comes from Alabama College, the donor has already made several additions to the fund.

8. **Federation of Women's Clubs Scholarships.** The Alabama Federation of Women's Clubs, at its third annual meeting, held in Anniston in May, 1897, began its active work for the Montevallo school. At the suggestion of Mrs. James L. McConaughy, of the Montevallo Studiosis, the Federation, through some of the individual clubs, established the "Studiosis Loan Collection" of books as a nucleus for the institution's library, and also contributed to a scholarship fund.

At the Selma meeting in May, 1898, the Federation established the "Kate Morizette Scholarship" at Montevallo and at Greenville in 1909, voted to name its other scholarship in honor of a pioneer worker, the "Conra McConaughy Scholarship."

At Mobile in 1911 the Federation accepted a gift of one hundred dollars from Miss Francilla Romah Haley, of Jasper, to establish the "Elizabeth Haley Moore Scholarship."

To obtain one of these Federation Scholarships a girl must meet these requirements: Be a resident of Alabama; be unable to complete her education without financial assistance; be able to enter a class in which she may be graduated in two years; secure the endorsement of the college and the endorsement of the Federation Loan Scholarship Committee; sign a note to pay back, within a stipulated time, whatever amount has been lent her.

- a. Kate Hagan Scholarship, \$100 annually.
- b. Kate Morizette Scholarship, \$200 annually.
- c. Conra McConaughy Scholarship, \$200 annually.
- d. Modern Study Club, Jasper, \$150 annually.
- e. Kenilworth Club, Birmingham, \$100 annually.
- f. Mary Hill Randle Scholarship, \$225 annually.

- g. Jennie Mina Darling O'Neal Scholarship, \$225 annually.
- h. Special Scholarship, \$200 annually.
- i. Fourth District Federation, \$200 annually.

9. **Harmon Foundation Scholarships.** Through special arrangement for the 1930-31 session three scholarships totaling \$500 were secured for Alabama College seniors from the Harmon Foundation.

10. **Hortense A. Battre Loan Scholarship.** The Colonial Dames of Alabama at their annual meeting in March, 1926, established a loan scholarship of \$100 annually for four years at Alabama College.

11. **Special Scholarship.** The amount of this scholarship is \$100 and is to be awarded to a member of the senior class. Mrs. T. H. Napier's Sunday School Class raised the money over a period of five years and it was available first in the 1930-31 session.

12. **New Castle Coal Company Scholarship.** \$250 annually. Established in 1927.

13. **Opportunity Scholarship Fund.** Alabama College was fortunate in securing a loan fund of one thousand dollars from Mrs. Maud Preuit Fennel, of Leighton, Alabama. This fund was given to the college through Mr. C. M. Mauldin who is serving as a trustee of the fund. It is entitled the Opportunity Scholarship Fund, and it is hoped that it will be added to very largely by others who are interested in the education of young women.

The purpose of this fund is to enable students, who have reached the junior or senior year and cannot complete their work for the degree to go through to graduation. The limit to any one individual is \$200 per annum. This will be paid back by the scholarship holder after finishing at the institution.

Its purpose is not to offer **Charity** but **Opportunity**.

The following students have been helped by this fund: Lucile Hitchcock, Harpersville; Robbie Andrews, Florala; Joy Cawthon, Florala; Ethel Drake, Benton; Sue Broadus Finklea, Monroeville; Helen George, Mobile; Gertrude Robbe, Birmingham; Bess Williams, Montgomery; Anne Holt Young, Oneonta; Ruth Warren, Birmingham; Susie Powers, Old Spring Hill; Mary Dell McCain, Lineville; Lavelle Tatum, Abanda; Carmen Ersel Burns, Monroeville; Ruth Holloway, Montgomery; Miriam Edmonds, Enterprise; Jean

Liston, Decatur; Rubye Collins, Ashford; Bethany Sharman, Roanoke; Vera Brasher, Carbon Hill; Emaleen Graham, Prattville; Lucy McCormack, Falkville; Inez Power, Blountsville.

14. **The Alta Patterson Memorial Scholarship.** This scholarship was established during the 1928-29 session by the faculty of Alabama College, members of Miss Patterson's family, and her friends.

Miss Patterson was a member of the Home Economics faculty who died in Paris in the summer of 1928 while on a trip through Europe. Loans up to \$250 per year may be granted to seniors, juniors, and sophomores, preference in order stated.

15. **School of Education Scholarships.** The School of Education at Alabama College grants two teaching scholarships. These scholarships may pay school expenses for the time the student is in college. In order to qualify for one of these scholarships a person must have completed the two-year elementary teacher-training course at Alabama College, or be a graduate from a class A normal school. Preference will be given to applicants who have had teaching experience.

The recipients of these scholarships teach half time in the training school and pursue college courses not to exceed ten credit hours a semester.

The training furnished in the collegiate courses and the work in the training school should fit the student upon graduation to enter the supervisory field.

Applications for these scholarships should be made to the Director of the School of Education, Alabama College, Montevallo, Alabama.

Appeal for Other Scholarships

Alabama College is maintained by the state for the higher education of its young women, both in cultural and practical lines, to prepare them for the duties of life and for useful employment whereby they may become self-supporting.

The institution does not deny its privileges to any worthy young woman, but there are many deserving young women who cannot attend because of lack of funds. The college invites the attention of public-spirited citizens to this condition and asks the consideration of an award of two hundred fifty dollars toward the education of a student for the scholastic year, the contributions thus made to be expended according to the judgment of the president.

GENERAL INFORMATION

In April of each year the college books are opened for reservation of rooms in the dormitories for the following session. No room is reserved until the advance fee, \$2.50, is paid, which is credited on the student's account. If, after paying the fee, the applicant finds that she cannot attend, it will be refunded, provided the President is notified before August 15; otherwise it will not be refunded.

In reserving room space, it is distinctly understood that the pupil must be present at the opening of the session to claim the reserved space, or a satisfactory reason for being late must be sent in advance by wire or in writing to the President; otherwise, the reserved space is forfeited and the fee will not be refunded.

An applicant can reserve space for herself only. A separate application and advance fee must be made by each student.

When an applicant has made a room reservation and for any reason decides that she will be unable to attend Alabama College she is not permitted to transfer her reservation to any other person. This may be done by the college authorities only.

When a student has enrolled, a room will be assigned her with one or two roommates. The right to change at any time, either room or roommates, is reserved by the college authorities.

All letters to students should be addressed to box number, Alabama College, Montevallo, Alabama.

No cooking is allowed in the main dormitory.

Special effort should be made by students to reach Montevallo on the opening day, so that they may be classified and begin recitations with their respective classes.

Students are advised to enroll in the bookkeeper's office before the close of the day, September 11, and save payment of the late registration fee of \$2.

Students may entertain guests in the dormitories by registering their names in the office of the Main Dormitory and arranging with the Food Supervisor for their meals. The stay of guests is limited to three days.

Employment of Students

Employment is offered to about sixty pupils in dormitory and dining room service. For this work fair and reasonable

compensation is paid. The pupils so employed can use the money thus earned in paying a part of their college expenses. As a matter of fact, all who are so employed pay a large part of their college dues in this way.

Health

To care for the health of the students the college maintains a modern, well-equipped hospital—Peterson Hall—with a capacity of thirty-six beds. A full-time woman physician and two nurses live in the hospital.

Daily office hours are held for consultation. As soon as college opens, the physician, in co-operation with the department of physical education, makes an examination of every student.

Inquiries and correspondence concerning the health of students should be addressed to the college physician.

Records and Grades

Final grades for each semester are recorded and preserved. In determining these grades, daily work, laboratory work, and written work are combined with the final examinations.

The grades are indicated by letters which have the following value: A—Excellent; B—Good; C—Average; D—Passing; E—Conditional; F—Failure; I—Incomplete.

The passing grade is D. E indicates condition which may be removed by examination. F indicates that the work must be done over in class. An E or an I must be removed by the end of the first thirty days of the semester after the E or I has been made. In the case of junior and senior students who elect freshman or sophomore subjects, the passing grade is C.

Students who are absent more than one-sixth of the total number of recitations during any semester are not allowed the privilege of final examinations except by special permission of the dean—but are required to take the work over in class.

Graduates or other former students who desire transcripts of their college records should write to the Registrar. One complete transcript of record is furnished free. A charge of one dollar will be made for each additional copy.

Semester System

Alabama College uses the semester system. In this division of the academic session, the year consists of two se-

mesters of eighteen weeks each and a summer school of approximately twelve weeks. A student may enter at the beginning of any semester and resident study during any two semesters or three summer schools is the equivalent of one year. This makes it possible for a student, who is physically strong enough to stay in school with short vacation, to complete the college course in a shorter time than is usually required. Sixty-four semester hours are required in a two-year course and one hundred twenty-eight semester hours are required in a four-year course. The sixty-four and one hundred twenty-eight semester hours are exclusive of the physical education work required in each.

Unit of Credit

The unit of credit is the semester-hour, which is the equivalent of one hour of recitation with two hours of preparation a week for a period of eighteen weeks. As a rule, two hours of laboratory work count as one hour of recitation or lecture. The usual schedule of work for a student is sixteen hours each semester, exclusive of physical education. Thus, one hundred twenty-eight hours, exclusive of physical education, are required for graduation.

Boarding Arrangements

About 850 students can be accommodated in the three dormitories. Assignment of rooms is made according to the date of application.

Only single or three-quarter beds are used.

Each student is expected to keep her room in order.

The evening study period is for three and one-half hours—7:30 to 11:00.

Each student should bring with her: 1 teaspoon, 2 bedspreads, 1 glass, 1 pillow, 2 pillow cases, 4 sheets, 1 pair of blankets, 1 comfort, 1 umbrella, 6 towels, 2 clothes bags, 1 rain coat, 1 pair overshoes.

Each student is requested to bring with her six Indian Head napkins, hemmed on all sides, twenty inches square. These napkins are to be given to the Food Supervisor for the use of the student during the year, but will not be returned to her.

Music Fees

See School of Music, Pages 133, 134.

After the student begins lesson in piano, voice, violin, or organ, tuition will not be refunded, but in case of continued illness the lessons will be made up.

Payments Due

All charges are payable in advance, in two installments on the first day of each semester, as follows:

September 8—Room, board, laundry, tuition and other general fees.....	\$144.75
January 23—Room, board, laundry, tuition and other general fees.....	144.75

In addition to these amounts for all boarding students, the music, expression, and special laboratory fees must be paid on the same dates by students taking these subjects.

These rates are for students who live in Alabama and who attend for the entire session. No period of less than three weeks at entrance will be considered in a reduction of the charge for room, board and laundry. Students who enter three weeks after the beginning of a semester will be charged all of the fees for that semester and for room, board, and laundry, at the rate of one dollar a day from the date of entrance to the date of the next regular payment. The payment must always be made on entrance.

Estimated Expense for First Semester

The foregoing is an account of the expense for the entire session and for each semester. Below is given an estimate of the amount of money a student boarding in the dormitory should be provided with on entering the school. This amount, of course, will vary according to the class which a student enters, and to the course she takes. A student taking music is required to buy her own music. Since the cost of books used in different classes and courses varies the estimate given below should not be taken too literally.

General fees (the same for all).....	\$ 36.75
Room; board, laundry (same for all).....	108.00
Regulation gymnasium suit.....	3.25
Books, etc. (may be more or less).....	15.00
	<hr/>
	\$163.00

A prospective student, therefore, when she leaves home should be provided with \$163.00 in addition to her traveling expenses, in order that she may enter school, procure books, etc., and begin recitations without delay. Should the student take music, expression, or any of the other subjects for which a special laboratory fee is charged, she should be prepared to pay those fees. All students from states other than Alabama should be provided with \$12.00 in addition to the amount mentioned above.

Refund

A student who withdraws before the end of a semester will receive a rebate on room, board, and laundry, determined in the following manner:

She will be charged one dollar a day from the beginning of the semester to the date her resignation is in the hands of

the President and this amount will be deducted from the payment for board for the whole semester. The amount remaining will be refunded to her. No refund is allowed for a leave of absence.

In no case will any part of tuition or any other fee before mentioned be refunded.

Advance Fee for Room Reservation

A student desiring to reserve room space before entering college should send an advance fee of \$2.50 with application. This amount will be credited on her account.

Out of State Students

Pupils from other states than Alabama will be charged an additional fee of \$24 payable \$12 per semester with the regular payments.

Local Students

Local students, or those not boarding in the dormitories, do not pay the college for room, board, and laundry, or for medical and medicine fee, but must pay tuition and other fees on the first day of each semester.

COLLEGE STANDARDS

Absences

Permission to be absent from the college will be granted only on written request from parent or guardian.

Alabama College does not recognize absences in the sense of relieving the student of responsibility for work missed when away from class. Students who have enforced absences due to personal illness or death in the family, and students who are absent on leave, may be granted the privilege of making up the work missed, but students who are absent voluntarily will receive deductions from their class grades by the instructors in charge.

The form to be used for enforced absence and absence on leave may be secured from the office of the dean and presented to the instructor from whose class the student has been absent. This form should be submitted within five days after the period of absence.

Changes in Course of Study

All changes in course of study must be passed upon by the dean before they become valid. No changes will be allowed after the second week from the date of entrance.

The usual number of hours required of a student is sixteen, plus one hour for physical education. By special permission, however, a student may be allowed to take as many as twenty hours, if her scholastic standing is sufficiently high to warrant it.

Any pupil who enters a class which is not listed on the Registrar's card and without the permission of the dean will not be given credit for the work so taken.

Late Registration

All students are required to register at the beginning of each semester. Those who register later than September 10 of the first semester and January 27 of the second semester will pay a late registration fee of \$2.00.

Classification

To rank as a member of the freshman class, a student must have presented fifteen units of high school credit.

To rank as a member of the sophomore class, a student must have twenty-seven semester hours' college credit and

twenty-seven grade points in addition to the fifteen high school units required for admission to the freshman class.

To rank as a member of the junior class, a student must have sixty semester hours' college credit, and sixty grade points, in addition to the fifteen high school units required for admission to the freshman class.

To rank as a member of the senior class, a student must have ninety-four semester hours' college credit, and ninety-four grade points, in addition to the fifteen high school units required for admission to the freshman class.

A student entering with one of the rankings given above may be promoted to a higher ranking at the end of any semester provided she has the total number of hours and grade points required for the completion of the year from which she is to be promoted.

Scholarship Requirements

The following represents the basis upon which credits and grade points are earned and recorded:

A—Excellent.....	3	grade points per hour
B—Good.....	2	grade points per hour
C—Average.....	1	grade point per hour
D—Passing.....	0	grade points
E—Conditional.....	0	grade points
F—Failure.....	0	grade points
I—Incomplete.....	0	grade points

Grade points for advanced credits are given on the basis of work done during the first semester at Alabama College.

Courses Leading to Graduation: The following are the requirements common to all degrees:

1. Each applicant for a degree must show credit for 128 semester hours of work in keeping with the curriculum she is pursuing, plus 8 semester hours of physical education and 136 grade points.

2. For graduation in a two-year curriculum, each applicant must complete 64 semester hours, plus 4 semester hours of physical education, and earn 68 grade points.

(Note: Under special conditions a student may be excused from physical education, but such excuse will be granted only on the recommendation of the college physician and the approval of the dean. For such cases students will substitute credits earned in other courses to meet the deficiency in physical education.)

3. Two years of English are required of each applicant for a degree.

4. A student must make an average of "C" in her major and minor departments.

5. Should any student fail to earn the requisite number of grade points by the time she has completed the courses specified for a given degree, in order to secure her degree she must take enough additional work to earn the required number of grade points. Such courses must be approved by the Dean.

6. In case of students who have transferred credits from other institutions the average of the work done during the first semester at Alabama College will be taken as the average of the work so transferred, and this average plus the average earned at Alabama College will be the basis upon which grade points are counted and honors awarded.

7. No student will be allowed to take more than 18 hours of work, except one who has an average of "B" in the previous semester's work, the consent of the college physician, the head of the major department, and the dean.

Honors

1. A student who completes the work for a degree with as many as 340 grade points, or an average of B plus, will be graduated with highest honors, and this fact will be cited with the degree.

2. A student who completes the work for a degree with as many as 272 grade points, or an average of B, will be graduated with honors, and this fact will be cited with the degree.

Probation and Dismissal

1. A student whose general average is below D at the end of the first semester may be required to withdraw, or placed on probation, at the discretion of the Dean and the heads of the departments concerned.

2. If a student has taken 34 semester hours of work, whether she has passed it or not, and has fallen 25 below the standard number of grade points, one grade point for each hour of work pursued, she is subject to enforced withdrawal at the end of the second or any subsequent semester.

3. The college invites those who desire an education and who are willing to work whole-heartedly for the maintenance of high standards of conduct and scholarship. The college reserves the right to ask for the withdrawal of any student whose general conduct and attitude show definitely that she

is a misfit at this institution and that she does not purpose conforming to its spirit, its standards, and its ideals. In a case of this kind a formal and specific charge will not be necessary.

Eligibility to Represent College

To be eligible to represent the college on any organization in public performance off the campus, a student must have passed all her work for the semester immediately preceding and show a satisfactory conduct record.

Standards of Conduct

It is earnestly desired that young women attending Alabama College shall have every privilege consistent with their welfare, and the purpose for which they are here. So far as practicable, regulations are dispensed with; but the College is deeply conscious of the responsibility placed upon it by the parents and guardians of the young women entrusted to its care. Every effort is therefore made to keep constantly in their minds the importance of high social standards, and to create a healthful and refining social atmosphere.

The Student Government Association, subject to the approval of the college authorities, adopts such regulations as are necessary for the social life of the college community. Every college student is expected to co-operate with the Executive Board and Senate in the observance of these regulations and to uphold their standards of conduct.

Students will not be allowed to remain in Montevallo after they have left the college for holidays, or at commencement, unless a written request for the privilege is addressed by the parent or guardian of the student to the Student Counselor and is approved by her. Students wishing to visit homes in Montevallo must have written permission from their parents addressed to the Student Counselor and approved by her, as well as an invitation from the head of the family she is to visit.

The college never grants permission to students to open accounts with the merchants of Montevallo. It discourages the making of such accounts and all unnecessary expenditures.

No student occupying the dormitories, or rooming in town, will be privileged to have for her use an automobile during the session.

ADMISSION TO COLLEGE

Methods of Admission

There are three methods of gaining admission to the freshman class:

1. **By Certificate from an Accredited School.** The requirement for admission by certificate is as follows:

A diploma from a standard high school or a certificate showing credit for 15 units' work and for four years of attendance in high school or high school and summer school combined.

If the 15 units' certificate shows credit for only three years of attendance, the applicant must take entrance examination on three units' work in fourth year high school subjects. If the certificate shows credit for $3\frac{1}{2}$ years of attendance she must take an entrance examination on one unit's work in a fourth year high school subject.

2. **By Certificate and Examination.** A graduate from a non-accredited high school who presents a certificate covering the work required for admission may be exempt from a part of the entrance examinations, provided the general character of the school attended, in the opinion of the admission committee, justifies such exemption. In such cases examinations are required in: one unit of rhetoric and composition, one unit of English classics, one unit in history of literature, one unit of algebra, one unit of geometry, and one unit of history.

3. **By Examination.** An applicant who does not present a satisfactory certificate is required to pass examination on 15 units of high school work, including the prescribed subjects. Examinations for admission will be held next session beginning on September 7. Application for entrance examinations must be made to the Dean ten days before the opening of the semester.

Special Students

Applicants twenty years of age or over who desire to pursue special courses may be admitted without formal examination, but must give evidence of adequate preparation to the instruction committee and to the head of each department in which the courses are sought.

In no case does the special course lead to a certificate or degree. Special students cannot become candidates for degrees or certificates until all requirements for entrance have been met.

If a special student desires to room in the dormitory, she must carry at least fourteen hours of work, six or more of which must be in academic subjects. She must conform to all regulations governing other students.

Advanced Standing. A student may be admitted to advanced standing by presenting credits from an approved institution of collegiate rank.

Prescribed Subjects

Of the fifteen units of high school work required, the following are prescribed:

English	3 units
*Mathematics	2 units
History	1 unit

The remaining units may be selected from the other subjects that are accepted for admission, provided not more than four units are offered in vocational subjects.

Courses Leading to B.A., B.S., B.Mus. Degrees

The degree of bachelor of arts, bachelor of science, and bachelor of music have been granted by the college since the 1923-24 session.

The following are the requirements common to all degrees:

1. Each applicant for a degree must show 128 semester hours of credit, plus 8 semester hours of physical education, and 136 grade points.

Under special conditions a student may be excused from physical education, but such excuse will be granted only on the recommendations of the college physician and the approval of the dean. For such cases students will substitute credits earned in other work to meet the deficiency of physical education.

2. Two years of English are required of each applicant for a degree.

Extension Courses

For a number of years Alabama College has given courses in extension when groups of teachers have requested them. No extra faculty has been employed for this purpose and the direction of it has been in charge of H. W. James, Director of the School of Education. The work has grown to such an extent that the college has had to limit its activity in this field. For types of work offered, see extension study under the School of Education.

A Two-Year Curriculum in Secretarial Science

All two-year curricula have been eliminated from Alabama College except the one in Secretarial Science, which is

*A graduate of a standard high school may be admitted without plane geometry. Such a student, however, must secure credit in this subject before beginning the sophomore year.

designed to give students training in Typewriting, Stenography, Business English, Bookkeeping, and other subjects, so that they may qualify as secretaries in the business world.

Course Numbers

The following system of numbering courses has been adopted:

Freshman courses that extend through both semesters are numbered 101-2, 111-2, 121-2, 131-2, and 141-2. One-semester courses are numbered 151-2, 161-2, 171-2, 181-2, and 191-2. One-semester courses that are repeated during the year are numbered 100, 110, 120, 130, etc., to 190.

Sophomore, Junior and Senior courses that extend through the year are numbered from 201 to 242, 301 to 342, and 401 to 442, respectively. One-semester courses are numbered 251 to 292, 351 to 392, and 451 to 492, respectively; while those that are repeated during the year are numbered in multiples of ten, Sophomore courses from 200 to 290; Junior courses from 300 to 390; and Senior courses from 400 to 490.

The first number represents the class and the last number represents the semester in which the course is given, except that courses numbered in multiples of ten may be offered either the first or second semester.

The decimal point is used to indicate that education credit is given for courses in other departments. Each subject is given a number of its own to use after the decimal point. The number after the decimal point designates the accredited department as follows:

- | | |
|---------------------|-------------------------|
| .1 Art | .6 Music |
| .2 English | .7 Physical Education |
| .3 Foreign Language | .8 Science |
| .4 History | .9 Speech |
| .5 Mathematics | .10 Secretarial Science |

Bachelor of Arts Degree

Requirements for Graduation

In order to receive the Bachelor of Arts Degree, a student must satisfy the following requirements:

1. Completion of 128 hours of college work plus 8 hours of Physical Education.
2. The 136 hours required for the A.B. degree must be chosen subject to the following regulations:
 - a. Prescribed Work: 12 hours must be in English 101-2 and English 200, 210 or 220; *12 hours in one Foreign Language; 12 hours in History or Economics or Political Science or Sociology; 6 hours in Mathematics; 6 hours in one Laboratory Science.
 - b. Major Work: A student must complete a minimum of 24 hours in a major department. The major department should be chosen by the end of the sophomore year. The departments in which major work may be chosen are: English, Foreign Language, History, Mathematics.
 - c. Minor Work: A student must complete a minimum of 18 hours in one of the departments mentioned above or in a related field. The minor should be chosen by the end of the sophomore year with the advice of the head of the department in which the major is taken, and should be approved by the Dean.
 - d. Physical Education: Completion of 8 hours of Physical Education is required at the rate of 1 hour each semester. Under special conditions a student may be excused from Physical Education by the college physician and the dean. Such students will substitute credits earned in other departments to meet this deficiency.
 - e. Technical Courses: Not more than 20 hours may be selected from technical subjects.
 - f. Duplications: Credit toward a degree will not be given for work which duplicates work already done in college or preparatory school.
3. The last 6 hours of the major and minor subjects must be taken at Alabama College.

*If the student has secured in the high school credit for at least two years of work in one foreign language, only 6 additional hours in that language are required.

4. Students transferring from another institution must spend at least one nine-month session, including the last semester, in full time residence work and must secure credit for at least 32 hours in advanced courses.

Courses of Study

The following are suggested courses for students desiring a liberal arts curriculum. This does not meet the requirements for the issuance of a teacher's certificate. Those interested in securing a College Secondary Class B Certificate along with the A.B. degree must enroll in one of the curricula outlined under the School of Education.

Students taking the liberal arts course may elect a maximum of thirty semester hours from home economics, art, or music, provided not more than twenty semester hours are technical in nature. The special subjects selected should begin in the freshman year and follow a regular sequence, to be determined by the head of the respective departments and approved by the Dean.

Bachelor of Science Degree

Requirements for Graduation

In order to receive the Bachelor of Science degree a student must satisfy the following requirements:

1. Completion of 128 hours of college work plus 8 hours of Physical Education.
2. The 136 hours required for the B.S. degree must be chosen subject to the following regulations.
 - a. Prescribed Work: 12 hours must be in English 101-2, 200, 210 or 220, *12 hours in one Foreign Language; 6 hours in History or Mathematics; **24 hours in either Biology or Chemistry, or in Biology and Chemistry. Two years of Biology and two years of Chemistry may meet the Science requirement.
 - b. Physical Education: Completion of 8 hours of Physical Education is required at the rate of one hour each semester. Under special conditions a student may be excused from Physical Education by the college physician and the Dean. Such students will substitute credits earned in other departments to meet this deficiency.

Training Social Workers

The Unified Education Bill provides for a more careful enforcement of the school attendance law. The State Board of Education has taken an advanced position in requiring that the supervisor of school attendance shall have training in social welfare.

Placing the school attendance work on social service basis gives an additional prestige to social work in the state and extends to the children of rural communities the service that has generally been given only to the children of the larger communities. To meet this demand for trained workers the State Board of Education has designated Alabama College as an institution to supply specific training in social service. For several years Alabama College has carried courses with the purpose in mind of interpreting social work to the prospective teachers and of recruiting interested young women for social work. And so, modifying the curriculum of Alabama College to meet this new demand was merely a matter of an enlargement of a program that has had its root in several years of experience in college activities.

The course includes—

1. Foundation course in social sciences.
2. Pre-vocational training in applied sociology.
3. Technical training in the field of social service.
4. Field work and inspection visits.

Bachelor of Science Degree

Sociology and Social Service

Upon completion of this course the student will receive a B.S. degree in Sociology and Social Service and a College Class C Secondary Professional Certificate. Students who do not wish to qualify for a teacher's certificate may substitute other electives for Education.

MISS REES

Art 100. Elementary Craft. An introductory course appealing to the native decorative instinct common to practically all normal persons. This course brings out the fact that good design enhances the value of raw material and that poor design is a calamity for both producer and consumer. Such popular crafts as basketry, lamp shades, leather work, decorative wood work, textiles, etc., are introduced with the idea of showing the value of further study in art structure or design. Two, four, or six hours a week. Credit, 1, 2, or 3 hours.

Art 101, 102. Drawing. An introductory course in representative and interpretative drawing. Drawing from objects and quick sketches from figure poses. Four hours a week. Credit, 2 hours each semester.

Art 111, 112. Art Structure. An elementary course dealing with fundamental principles. The first semester treats of line and tone; and the second of color. Must be taken in the order indicated. Required of all Art majors. Six hours a week. Credit, 3 hours each semester.

Art 131, 132. Drawing for Science Students. Representative drawing and painting from flower specimens, etc. Lettering, tracings and care of notebooks. Also, principles of arrangement. Two hours once a week. Credit, 1 hour each semester.

Art 140. Elementary Pottery. A beginners' course in pottery and clay modeling. Given without prerequisite and for the same purpose as Art 100. Modeling and decoration of toys, masques, tiles, vases, bowls, etc. Four hours a week. Credit, 2 hours.

Art 150. Related Art. This course is given primarily for Home Economic students. It considers fundamental art principles in relation to the three elements, line, tone, color. Six hours a week. Credit, 3 hours.

Art 201, 202. Drawing and Painting. Further training in representation and illustration. Still life and landscape

composition. Prerequisite: except for Art majors, Art 102. Four hours a week. Credit, 2 hours each semester.

Art 251. Art Structure. A course dealing with the three elements of art, line, tone, and color as affected by the various principles of balance, rhythm, subordination, etc. Prerequisite: Art 112. Required of all Art majors. Six hours a week. Credit, 3 hours.

Art 240. Pottery. Lecture and laboratory work. The principles of art as applied to shapes in the round. Work with clay built up forms, modeling, etc. Also soap sculpture, mask making, cement work, etc. Required of Art majors. Prerequisite: Art 251, or 140 and 111. Six hours a week. Credit, 3 hours.

Art 250. Related Design. A course stressing the principles of art as applied to the problems of the home economics student. A special study of color in theory and practice. Prerequisite: Art 150 or Art 111. Credit, 3 hours.

Art 301, 302. Drawing and Painting. Advanced course. Still life, figure, and landscape work. Imaginative composition and illustration. Prerequisite: Art 202. Four hours a week. Required of all Art majors. Credit, 2 hours each semester.

Art 311, 312. Art Structure. Advanced course in design. Various problems having to do with decorative art. Each semester must be taken in the order indicated. Required of all Art majors. Prerequisite: Art 251. Six hours a week. Credit, 3 hours each semester.

Art 321, 322. Art Appreciation. Lectures and assigned readings and research. Open only to juniors and seniors. Required of all Art majors. One hour a week. Credit, 1 hour each semester.

Art 330. Mechanical Drawing. Lettering, use of instruments, working drawings, linear perspective, projections, elevations. Two hours a week. Credit, 1 hour.

Art 331, 332. Interior Decoration. This course is intended for those wishing professional training, and treats of art principles applied to house decoration. A study of historic styles and modern tendencies. Each semester must be taken in the order indicated. Prerequisite: Art 251. Art 330 may be taken parallel. Six hours a week. Credit, 3 hours each semester.

Art 341, 342. Clay Modeling. Advanced work in relief, modeling, and glazing. All taking this course are required to take a course in chemistry of glazing in their junior or senior year. Must be taken in the order indicated. Prerequisite: Art 240. Six hours a week. Credit, 3 hours each semester.

Art 300.1, 350.1. Public School Art. A course given primarily for students preparing to teach in the elementary schools. The first term deals with fundamental art principles and their application. The second considers various problems for elementary and high school grades and gives practice in making outlines, courses of study, etc. Must be taken in the order indicated. Art 350.1 is required of all Art majors who expect to teach. Four hours a week. Credit, 2 hours each semester.

Art 400, 410. Commercial Art. Study of lettering, poster making, advertising layout and illustration, designing for reproduction, etc. Greeting cards, wood blocks, etching, etc. Prerequisite: Art 312. Six hours a week. Open to juniors. Credit, 3 hours each term.

Art 401, 402. Drawing and Painting. Advanced illustration and composition. Drawing from the cast and from life. Prerequisite: Art 302. Four hours a week. Credit, 2 hours each semester.

Art 411, 412. Art Structure. Advanced course in design. Prerequisite: Art 312. Required of all Art majors. Six hours a week. Credit, 3 hours each semester.

Art 421, 422. History of Art. A chronological survey of great historical epochs as expressed in the art of the times. The first semester, Ancient Art, and Medieval Art: Second semester, Modern Art. Open to juniors and seniors. Required of Art majors. Two hours a week. Credit, 2 hours each semester.

Art 431, 432. Interior Decoration. A further study of art principles applied to interior architecture, stage settings, etc. Elevations planned to scale, color schemes indicated in textiles, wall paper, paints, etc. Practical experience in decorating. Prerequisite: Art 332. Six hours a week. Credit, 3 hours each term.

Art 441, 442. Advanced Pottery and Clay Modeling. A continuation of the study of the junior year. Prerequisite: Art 342. Six hours a week. Credit, 3 hours each semester.

Art 471, 472. Applied Art. Advanced study and practice of various crafts. Work in leather, basketry, metal, textiles, etc. Semesters may be taken interchangeably. Prerequisite: Art 312. Six hours a week. Credit, 3 hours each semester.

BIOLOGY

Biology 101. Botany. A general course dealing briefly with the four phyla of the plant kingdom; the cell, functions of cells, and cell division; the kind, structure and uses of the root, stem, leaves, buds, fruits, and seeds; and a study of such algae, fungi, liverworts, mosses, and ferns as time will permit. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 102. Zoology. Beginning with the amoeba as representative of protoplasm, and of the lowest group of animals, the various phyla are studied in their evolutionary sequence. Time does not permit of a study of all the groups, but such representatives as the following are examined: Amoeba, Paramecium, Euglena, Pandorina, Volvox, Hydra, Obelia, Gonionemus, Grantia, Planaria, Tapeworm, Ascaris, Earthworm, and the Frog. A study is also made of the great scientists in various fields of biology, together with the contribution each has made. Prerequisite: Biology 101 or its equivalent. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 110. Zoology. The same animals will be studied as are listed for Biology 102, but the subject matter will be treated differently. Only students taking home economics and elementary education should register for this course. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 200. General Physiology. A special course for students in elementary education. The same topics will be discussed as in Biology 210, but not so much in detail. Two lectures a week. Credit, 2 hours.

Biology 210. General Physiology. A study of the structure and functions of the various organs of the body, and means of maintaining them in health. Stress is laid on such

*On leave of absence.

topics as harmones, vitamins, immunity, and resistance to disease. A study is made of the germ theory of disease and its founders, of antiseptic surgery and its founder, and of the circulation of the blood and of Harvey, who discovered it. The course aims to give a knowledge of the principles underlying Sanitation, Hygiene, Dietetics, Physical Education, and Physiology. Two lectures and one two-hour laboratory period a week. Credit, 3 hours.

Biology 211, 212. Physiology and Anatomy. This course consists of both lecture and laboratory work. The lecture work deals with the same topics listed for General Physiology 210 with a fuller treatment of each. The laboratory work will consist of the dissection and study of suitable animals for the purpose of learning the structure of the various muscles, organs, and systems of the body. Experiments also will be performed to demonstrate the function of the various structures. Required of all students taking physical education course. Two lectures and three two-hour laboratory periods a week. Credit, 5 hours each semester.

Biology 252. Nature Study. A study of both plants and animals in the field. Emphasis is placed on the study of birds, insects, local flora, and wild life in general. Studies in nature that are applicable to the grades of the public schools are demonstrated by assigned projects. Two two-hour laboratory periods a week. Credit, 2 hours.

Biology 301, 302. General Botany. Designed to teach the fundamental principles of botany. The four phyla are studied with relation to their evolutionary development. Course 301 will consist of a rather detailed study of a number of the representative species of algae, fungi, and liverworts and mosses, including in the first the blue green, green, brown, and red algae; in the second bacteria, yeast, molds, mildews, smuts, rusts, mushrooms, and puffballs; and in the third Riccia, Marchantia, Pellia, Porella, Anthoceros, Polytrichum, and Sphagnum. The advancement the liverworts and mosses have made over the lower forms will be noted and attention will be directed to the characters they have in common with the higher plants. Course 302 will be a continuation of course 301 and will consist of a comparative study of the pteridophytes, gymnosperms and angiosperms. In this study will be noted the gradual degeneration of the gametophyte, antheridium and archegonium in contrast to the gradual development of the sporophyte with its roots, stem, leaves, branches, flowers, and fruits. Prerequisite: Biology 101. Two lectures and two two-hour laboratory periods a week. Credit, 4 hours each semester.

Biology 300. Bacteriology. This course will deal with the morphology, physiology, and cultivation of bacteria, yeast, and molds. Special consideration will be given to the relation of microorganisms to the preservation, preparation, and handling of foods; to their relation to water and milk supply and sewage disposal; and to the organisms occasionally found in various foods, water and milk that cause disease. The course will be of such a nature as is needed for students taking home economics and for those desiring to become acquainted with the fundamental principles of bacteriology and sanitation. Three two-hour laboratory periods a week. Credit, 3 hours.

Biology 310. Pathogenic Bacteriology. An historic consideration of the theories of disease and immunity together with a study of the morphology, physiology, cultivation, and methods of identifying the principal disease producing organisms. The organisms studied are those causing diphtheria, pneumonia, tuberculosis, anthrax, meningitis, scarlet fever, gonorrhea, typhoid fever, dysentery, food poisoning, cholera, glanders, tularemia, plague, tetanus, gaseous gangrene, syphilis, and leprosy. Rabbits are immunized, sera prepared, and agglutination tests made. Demonstrations of how animals may be protected against diphtheria toxin by the use of antitoxin are performed on guinea pigs. Students are given the Schick test to determine whether or not they are immune to diphtheria and guinea pigs are used to show how animals may be made immune to diphtheria. Prerequisite: Bacteriology 300. Three two-hour laboratory periods a week. Credit, 3 hours.

Biology 320. Bacteriology. (Preventive Medicine, Parasitology, and Sanitation.) A general course dealing with the cause of the most common contagious, infectious, and non-infectious diseases, their importance, and how to prevent them. A laboratory study of the mosquito, house-fly, malaria parasites, hookworm, *Trichina*, *Ascaris*, flea, bedbug, lice, etc., in their relation to human diseases. Milk, water, and sewage in relation to health. Care of the body so as to prevent disease. Methods of bettering home, school, industrial and city sanitation. Students desiring may take the lecture work and omit the laboratory work, but will receive only 2 hours of credit by so doing. Two lectures and one two-hour laboratory period a week. Credit, 3 hours.

Biology 330. Genetics. In this course a study is made of the Mendelian laws of heredity, and problems involving them are worked out. The work of Dr. T. H. Morgan with his *Drosophilas* is carefully examined and the principles of

heredity involved noted. The hereditarian versus the environmental views are noted, the various theories of evolution are examined and a survey made of man in the Paleolithic and Neolithic ages. Three lectures a week. Credit, 3 hours.

Biology 351. Invertebrate Zoology. A study will be made of as many forms of invertebrates as possible not included in Biology 110. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 352. Vertebrate Zoology. This course will consist of a study of the vertebrates from a standpoint of comparative anatomy. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 371. Physiology of Exercise. Required of Physical Education majors. Credit, 3 hours.

Biology 372. Systematic Botany. Designed to acquaint the student with the latest views on the classification of the plant kingdom. Attention will be given to the collection and identification of the species of the local flora. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 400. Plant Ecology. An elementary course dealing with the relation of plants to their environment. The distribution and association of vegetation will be considered. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 401, 402. Advanced Bacteriology. This course will deal largely with pathogenic bacteria and methods used in public health laboratories. All the organisms mentioned in Bacteriology 310 will be studied in great detail in the laboratory and methods learned for isolating them from patients and then in identifying them. Specimens which will be obtained from the State Health Laboratory will be given the students for identification. Studying animal parasites such as hookworm, *Trichina*, tapeworms, malaria parasites, etc., making blood counts of red and white cells and blood smears for differential counts; learning to classify groups of human blood for the purpose of transfusion; analyzing water, milk, urine; examining dog's head for rabies; and preparing materials for Wasserman and the making of test. Designed especially to prepare students to assist physicians and dentists as well as technicians for hospitals and state laboratories. One lecture and three two-hour laboratory periods a week. Credit, 4 hours each semester.

Biology 410. Embryology. A consideration of the early development of animal life. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Biology 452. Entomology. A general study of the economic importance of insects in their relation to man, classification, and methods of control. One lecture and two two-hour laboratory periods a week. Credit, 3 hours.

Note: Advance courses will be offered only when classes are large enough to justify their being given. This will be determined by the head of the department.

MISS DECKER

MISS DUSCHAK

Chemistry 101, 102. General Chemistry. This course embraces a study of the common elements and their related compounds, along with fundamental chemical laws, theories, etc. Prerequisite to all other courses of Chemistry. Two lectures and one two-hour laboratory period a week throughout the year. Credit, 3 hours each semester.

Chemistry 201, 202. Qualitative Analysis. This course includes a study of the methods of separation and identification of the common metals and acid radicals in the laboratory, accompanied by classroom discussion of the methods of analysis and the underlying principles and theories. One lecture and two two-hour laboratory periods a week throughout the year. Credit, 3 hours each semester.

Chemistry 211, 212. Quantitative Analysis. Analyses involving both gravimetric and volumetric methods are given in this course along with numerous problems which ordinarily confront the analytical chemist. One lecture and two two-hour laboratory periods a week. Credit, 3 hours each semester.

Chemistry 220. Inorganic Preparations. This course is open to students who have had General Chemistry and who desire to do further work in this field. The course aims to instruct the student in the preparation and purification of a number of useful laboratory reagents, particularly the metallic salts. Two two-hour laboratory periods a week throughout one semester. Credit, 2 hours.

Chemistry 231, 232. Organic and Physiological Chemistry. This course during the first semester deals with the fun-

damental principles of Organic Chemistry, necessary to a more complete understanding of Physiological Chemistry. The second semester is devoted to Physiological Chemistry in which is taken up a study of fats, carbohydrates, and proteins, and the digestive action of the various body secretions on foods. A very brief study is also made of the blood and excretory products of the body. Required of all regular Home Economics students. Two lectures and one two-hour laboratory period a week. Credit, 3 hours each semester.

Chemistry 311, 312. Chemistry of Nutrition. This course is designed for those students who are doing their major work in Social Service or Sociology. The scientific value of foods is studied accompanied by laboratory experiments on the nutrition afforded by certain classes of foods. In so far as is practicable, the laboratory work will be developed along lines suggested by the student. Two lectures and one two-hour laboratory period a week throughout the year. Credit, 3 hours each semester.

Chemistry 321, 322. Physical Chemistry. A study of the fundamental laws and theories which enter into the science of chemistry is made in this course. Prerequisites: Qualitative and Quantitative Analysis. Offered with or without laboratory work. Three lectures or two lectures and one two-hour laboratory period a week throughout the year. Credit, 3 hours each semester.

Chemistry 401, 402. Organic Chemistry. A course in Organic Chemistry designed for those students who are majoring in this department or who desire to elect additional work in Chemistry. Two lectures and one two-hour laboratory period a week. Credit, 3 hours each semester.

Chemistry 411, 412. Physiological Chemistry. This course will deal with the chemical actions of various body secretions upon foods. Laboratory work will consist of experiments upon digestive secretions, urine, blood, etc. Two lectures and one two-hour laboratory period a week. Credit, 3 hours each semester.

Physics 201, 202. General Physics. A general course in physics involving a study of the systems of measurements, laws of machines, gravitation, and electricity. Two lectures and one two-hour laboratory period a week. Credit, 3 hours each semester.

Physics 340. Physics. An elementary course in general physics with special emphasis on the principles used in house-

hold appliances and on the practical application of these principles. This course is designed for students in the Home Economics course. Two lectures and one two-hour laboratory period a week. Credit, 3 hours.

Majors in English. All students who major in English, must complete with credit the following courses:

1. Survey of English Literature (301 and 302) 6 hours
2. Teaching of English 350.2 3 hours
3. Shakespeare (451) 3 hours
4. A problem course (471, 472, 481, or 482) 3 hours

Those who expect recommendation by the English Department for high school teaching must complete the following additional courses:

5. Advanced composition (360, 361, 362, or 371) 2 hours
6. English language (461 or 462) 2 hours

All English majors are advised to elect courses in Speech and English History.

Minors in English. All students who minor in English expecting to be recommended as teachers of high school English must complete with credit:

- Survey of English Literature (301 and 302) 6 hours
and 4 hours of additional work to be selected from
the courses required of majors.

The English Laboratory. All students, but especially those in the Freshman year, who find that they are poorly prepared in the fundamentals of English composition are encouraged to spend some time each week in the English laboratory, where each student is given special drill adapted to her individual needs. The expense of supplying all materials needed in the laboratory is covered by a fee of \$1.00 for each semester.

English 101. Freshman Composition. Practice in the basic forms of composition, both oral and written. Drill in mechanics. Required in all curricula. Four times a week. Credit, 3 hours.

English 102. Freshman Composition. A continuation of English 101. Outside reading in contemporary prose. Required in all curricula. Four times a week. Credit, 3 hours.

Sophomore Requirement. Two of the three courses that follow must be completed with credit by all students in the sophomore year. Each course is intended to secure orientation in a particular type of literature and to serve as an introduction to the general study of literature on a college level.

English 200. Types of Poetry. Credit, 3 hours.

English 210. Types of Prose Fiction. Credit, 3 hours.

English 220. Types of Drama. Credit, 3 hours.

English 252. Business English. Chiefly letter and report writing. Required of two-year secretarial students. Prerequisite: English 102 or a grade of B in English 101. Credit, 2 hours.

English 271. Biography. An intensive study of biography and other closely related literary types, with historical background. Prerequisite: English 102. Credit, 2 hours.

English 272. The Bible as Literature. A study of literary types. Prerequisite: English 102. Credit, 2 hours.

English 301, 302. Survey of English Literature. The first semester traces the development of English literature from Beowulf to Pope. The second semester covers the eighteenth and nineteenth centuries. Prerequisite: six hours in Sophomore English. Credit, 3 hours each semester.

English 310. Literature for Children. Study of the types of literature and the best examples of each type available for use in the school and the home. Required in the A.B. Elementary curriculum. Prerequisite: Sophomore English. Credit, 3 hours.

English 320. Survey of American Literature. Study of the greater writers and their characteristic work. Required in the A.B. Elementary curriculum. Prerequisite: Sophomore English. Credit, 3 hours.

English 350.2. Teaching English in the High School. Study of the special problems presented to the high school

teacher of English. Materials and methods. Prerequisite: Sophomore English. Credit, 2 or 3 hours.

English 351. Advanced Business Writing. Study of the psychology and the form of business letters, reports, and other business papers. Prerequisite: Sophomore English. Credit, 2 hours.

English 360. Writing for Publication. A practice course in news and feature article writing. Prerequisite: 3 hours of Sophomore English. Credit, 2 hours.

English 361, 362. Creative Writing. A course to encourage creation of original work in poetry, short story, essay, play. Either semester or both may be elected. Credit, 2 hours each semester.

English 371. Speech Composition. Course statement to be found in the announcement of Speech courses. Credit, 2 hours.

English 372. Composition for Elementary Teachers. A practice course in the forms of writing used effectively in teaching children. Oral and written exercises. Recommended for all who expect to teach in any of the first six grades. Prerequisite: Sophomore English. Credit, 2 hours.

English 381. The Romantic Movement. Study of the principal writers in the English Romantic period. Prerequisite: Sophomore English. Not offered 1931-32. Credit, 3 hours.

English 382. The Victorian Age. Tennyson and Browning and their contemporaries. Prerequisite: Sophomore English. Not offered 1931-32. Credit, 3 hours.

English 451. Shakespeare. An advanced course. Required of English majors. Prerequisite: English 301 and 302. Credit, 3 hours.

English 452. Contemporary Drama. European and American dramas since 1890, with historical and literary backgrounds. Prerequisite: English 301 and 302.

English 461. Advanced English Grammar. Critical problems in present grammatical usage viewed in the light of comparative grammar and the history of the language. Prerequisite: Sophomore English. Credit, 2 hours.

English 462. The English Language. A survey of the problems involved in acquiring mastery of the English language. Prerequisite: Sophomore English. Credit, 2 hours.

English 471. Contemporary Essay. Study of characteristic themes and style in the essay of the present century. A problem course. Prerequisite: English 301 and 302. Credit, 3 hours.

English 472. Contemporary Poetry. Study of the chief British and American poets since 1890. A problem course. Prerequisite: English, 301 and 302. Credit, 3 hours.

English 481. Principles of Criticism. A survey of critical theory with practice writing and problem studies. A problem course. Prerequisite: English 301 and 302. Credit, 3 hours.

English 482. Problems in American Literature. An advanced course in selected problems related to the development of American literature. Prerequisite: English 301 and 302. Credit, 3 hours.

History 101, 102. History of Civilization. A study of the development of civilization from prehistoric times to the present. Required of history majors and minors. Credit, 3 hours each semester.

History 111, 112. History of the United States. A survey course. For Home Economics students. Open to others only with the consent of the department. Credit, 3 hours each semester.

History 201, 202. History of the United States. A study of colonial America and the development of the United States. Prerequisite: History 101, 102. Required of history majors and minors. Credit, 3 hours each semester.

History 221, 222. History of Modern Europe. A survey course. Semesters may be taken separately only with the consent of the department. Students who major in modern languages are expected to take this course. Prerequisite: History 101, 102. Credit, 3 hours each semester.

History 252. Economic History of the United States. A survey of the stages of economic development in the United

States. Open to secretarial students and social workers. Credit, 3 hours.

History 261. Roman History. Prerequisite: History 101, 102. Required of Latin majors. May be elected by other students. Credit, 3 hours.

History 262. Contemporary History. A survey of contemporary world problems and international relations. Not more than one semester may be taken for credit. Credit, 2 hours.

History 321, 322. History of England. Prerequisite: History 101, 102. Survey of English history with emphasis upon social and economic development. This course is especially recommended to students majoring in English. Credit, 3 hours each semester.

History 350.4. Teaching History in the High School. See Education 350.4.

History 452. History of the West. A course tracing the history of the expansion of the United States and the influence of the frontier upon the political, social and economic ideals of the United States. Open to all history majors in the junior and senior year, and to minors who have the consent of the department. Offered in alternate years. To be given 1931-32. Credit, 3 hours.

History 461. Economic History of Europe. A survey of the economic development of Europe with especial emphasis on the industrial revolution, socialism, and recent commercial and financial organization. Open to juniors and seniors with the approval of the department. Credit, 3 hours.

History 471. History of Alabama. A survey course. Open to students in the junior and senior years. Especially recommended for majors taking the Elementary A.B. Course. Offered in alternate years. To be given in 1931-32. Credit, 3 hours.

History 481. History of the South. A course tracing the economic, social and political development of the South from 1830 to 1876 and appraising its influence upon the nation. Open to history majors in the junior and senior years and to such minors as have the approval of the department. Offered in alternate years. Not to be given 1931-32. Credit, 3 hours.

History 482. Recent History of the United States. A survey of the history of the United States since 1884 with

special emphasis upon the social and economic problems of the period. Open to all students in the junior or senior year. Offered in alternate years. Not to be given in 1931-32. Credit, 3 hours.

Political Science

Political Science 121, 122. American Government and Politics. For freshmen taking the home economics course. Open to others with the consent of the department. Credit, 3 hours each semester.

Political Science 301, 302. Introduction to Political Science. A study of the principles of political control and the analysis of forms and practices in the United States. Prerequisite: History 201, 202. Credit, 3 hours each semester.

Political Science 462. Comparative Government. After a brief outline of the constitutional history of leading European states the course will consist of a study of the general problems of government and of the solutions developed by different governments of the world. An attempt will be made to discover the forces which determine the various forms and tendencies of government. Prerequisite: junior standing. Credit, 3 hours.

Political Science 491. American Diplomatic Problems. A study of American interests in Latin America, Europe and the Far East. Credit, 2 hours.

Economics

Economics 251. Elementary Economics. Open only to secretarial students. Credit, 3 hours.

Economics 311, 312. Principles of Economics. A survey of economics. Prerequisite: History 201, 202. Credit, 3 hours each semester.

Economics 350. Elementary Economics. For home economics students. May be elected by others with the consent of the department. Credit, 3 hours.

Geography

Geography 231, 232. Survey of Geography. The first semester is devoted to physical geography and the second to human geography. Required of students taking the A.B. Elementary Course. Elective by semesters for all others who desire to take it. Credit, 3 hours each semester.

Geography 360. Commercial Geography. A study of the influence of geography upon the commercial and economic development of the important nations of the world. Required of commercial students. Open to all others who desire to take it. Credit, 3 hours.

Note: A student who majors in this department will be required to take the following courses:

Freshman	101, 102
Sophomore	201, 202

101,	102	College Algebra and Trigonometry	6 hours
201,	202	Analytics	6 hours
301,	302	Differential and Integral Calculus	6 hours
401,	402	Theory of Equations; Differential Equations	6 hours

Mathematics 101, 102. College Algebra and Trigonometry. Approximately two-thirds of the year's work is devoted to College Algebra, the remainder to Trigonometry. The course includes such Plane Analytics as is required for an understanding of the graphic work in Algebra and the general form of the Trigonometric Ratios. Credit, 3 hours each semester.

Mathematics 150. Business Arithmetic. A practical course offered for two-year Secretarial students. This course is not accepted for credit toward the Bachelor's Degree. Credit, 2 hours.

Mathematics 162. Solid Geometry. An elective for students who do not present entrance credits in Solid Geometry. Credit, 2 hours.

Mathematics 201, 202. Analytics. Emphasis is placed upon the analytic method, rather than upon geometry. Consequently the powerful method of differential calculus is presented at appropriate times. The course includes elementary analysis involving three variables. Credit, 3 hours each semester.

Mathematics 210. Elementary Statistical Methods. A course in simple graphical and analytical representation of data; averages; measures of dispersion; correlation; simple probability and the normal curve. Credit, 2 hours.

Mathematics 211, 212. Modern Geometry. A continuation of Euclidean (High School) geometry, with an introduction to the simpler ideas of projective geometry. Special emphasis is placed upon the geometry of the triangle and of the circle. Credit, 2 hours each semester.

Mathematics 251. Savings and Investments. Simple and compound interest; pensions and retirement annuities; life insurance; amortization; sinking funds; depreciation; building and loan associations. Credit, 2 hours.

Mathematics 301, 302. Differential and Integral Calculus. Credit, 3 hours each semester.

Mathematics 311. History of Mathematics. Recommended for majors. Credit, 2 semester hours.

Mathematics 313, 314. Projective Geometry. A study of the projective properties of geometric figures. The work of the first semester is by the synthetic method, that of the second semester by the analytic method. Credit, 2 hours each semester.

Mathematics 350.5. The Teaching of Secondary Mathematics. Required of students desiring a teacher's certificate. Credit, 2 or 3 hours.

Mathematics 401, 402. Theory of Equations; Differential Equations. Credit, 3 hours each semester.

Religious Education

MR. CARMICHAEL

The courses in this department, though continuous, may be begun at the beginning of each semester.

Religious Education 101, 102. Harmony of the Gospels. This course is primarily a study in the Life of Christ. The text used is the **Harmony of the Gospels**, by Steven and Burton. An attempt is made to secure for the student a comprehensive view of the life of Christ through a careful study of the four records given in the New Testament. During the year the members of the class will be introduced to a fairly wide range of material useful in the effective approach to the study of the Bible. This course should be especially helpful to those who wish to develop a skill in the independent study of the New Testament. Open to all college students. Juniors and seniors required to make a grade of "C" to pass. Credit, 2 hours each semester.

Religious Education 201, 202. The Acts and Pauline Epistles. During the first semester this course will deal

primarily with the early history of the Christian Church as it is found in the Acts of the Apostles. Having gained a fairly clear conception of this historical portion of the New Testament, the student will be guided in her reading through a more or less comprehensive survey of the history of the Church to the present time. In the second semester a general survey will be made of the Pauline Epistles. Open to all college students. Credit, 2 hours each semester.

Religious Education 401, 402. **The Curriculum of Religious Education.** In the first semester the student will be introduced to some of the more recent theories relative to the curriculum of religious education. Due consideration will be given to a comparison of the various theories in the field and an attempt will be made to discover the trends of the present time, and to evaluate them. In the second semester especial emphasis will be given to religious education in the family. This is an important study for all of those who anticipate work with children either in the school, the home, or the community. While text books will be used in this course, the class exercises will be very largely that of a discussion group. Open to all college students except freshmen. Credit, 2 hours each semester.

321, 322 Junior Instruction.

421, 422 Senior Instruction.

(Special fee for private instruction. See page 28.)

Recitals

From time to time each student is presented in public recital, thus putting into practice the work of the class and private hours; learning how to phrase and to hold an audience; and gaining confidence for later appearance before the public.

Besides the general recitals, the juniors give a joint recital in the spring, and each senior gives an individual full evening program.

Many opportunities for readers to entertain societies, receptions, and various organization meetings are offered, where those prepared may go.

The Play Workshop

The Workshop is a place where inexperienced players may be given a chance, and where original plays and skits and unpublished material may be presented.

The Children's Theatre

The children of the community have an organization which puts on plays under the direction of the Speech Department with speech majors assisting.

College Theatre

The College Theatre offers further opportunity for practical application of all theories, technique and practice. At least three all college productions are presented during the year.

Announcement

The School of Education includes in its faculty experts in the fields of educational methods, psychology, and special subjects. In addition to the faculty of the School of Education, teachers in the departments of art, expression, home economics, commercial work, music, physical training, etc., cooperate in training teachers for these special fields.

A feature of special interest to teachers is a course in kindergarten training. During the six years it has been a part of the curriculum, it has become quite popular.

Another feature of interest in the four-year curriculum in elementary education is a course in administration and supervision. The college is especially fortunate in the arrangements made for providing for this work. An arrangement has been in effect for several years with the County Board of Education of Shelby County for the School of Education to take over the supervision of certain county schools within the vicinity of the college. This is of mutual benefit to the county in providing supervision for its teachers, and to Alabama College in providing a laboratory for the training of elementary principals and supervisors. Demonstration and practice in this field are put upon a similar basis to demonstration and practice teaching in the training school.

Courses Announced in School of Education

Bachelor of Arts Degree in Elementary Education. This is a four-year course for students preparing to teach in the elementary schools. There is a growing demand for elementary teachers with four years of professional training. Many of the school systems are making this a requirement for their teachers. For students interested in teaching in elementary schools the degree in this field probably offers as much or more chance to advance than the degree in secondary education. Seniors in this course who are interested in administrative problems may elect a course in elementary administration which will prepare them for elementary principalship. Students with three years of teaching experience may also qualify for elementary supervisors.

Bachelor of Arts Degree in Secondary Education. All students who wish to obtain a certificate to teach the fundamental high school subjects must enroll in this course. With the present status of public high school teachers in Alabama, there is need for teachers who can teach more than one subject. Students finishing the course for secondary teachers will have a major and a minor subject, and will be prepared to meet the demands of the Alabama schools. Many high schools are putting in work in the special subjects of art, expression, home economics, music, physical training, etc. Alabama College offers an excellent opportunity for a student to take a minor in these subjects with a major in academic work. Teachers with such qualifications are in demand in the high schools of the state.

A student finishing this curriculum may teach any subject in which she has had twelve semester hours of college credit.

Organized Courses for Teaching in the Special Fields. In addition to the teacher-training courses in the academic subjects the following courses are outlined for teaching in the special fields:

B.S. in Art with Education.

B.S. in Secretarial Subjects with Education.

B.S. in Home Economics with Education.

B.S. in Physical Education with Education.

B.M. in Piano, Voice, Violin, and Public School Music.

(The outlines of the special courses are given in other parts of the catalog and will not be repeated here.)

Selection of Major and Minor Subject

There is a serious effort in Alabama to standardize certain teaching combinations. The State Department of Education, high school principals, and schools of education of the state colleges as well as those of the private colleges are co-operating in this.

The suggested combinations are:

1. English and foreign languages.
2. History and other social studies.
3. Mathematics and science.
4. Occupations for girls and English, or social studies.

Students enrolled in the A.B. curriculum in secondary education are asked to confer with the Director of the School of Education before selecting a minor subject.

In addition to the above minors, library science is suggested to students interested in this type of work. At present there is a demand in Alabama high schools for teachers who are qualified to take charge of the high school library along with teaching.

Teachers' Certificates

College Secondary Class B Certificate. A College Secondary Class B Certificate valid for a period of six years may be issued to a graduate receiving an A.B. degree in secondary education. This certificate will authorize its holder to teach in junior and senior high school. It may be converted into a Permanent certificate after four years of successful teaching experience.

College Secondary Class C Certificate. A College Secondary Class C Certificate valid for three years may be issued to a person who has completed three years of the curriculum leading to the A.B. degree in secondary education. This certificate will authorize its holder to teach in junior and senior high school.

College Elementary Class B Certificate. A College Elementary Class B Certificate valid for a period of six years may be issued to a graduate receiving an A.B. degree in elementary education. This certificate will authorize its holder to teach in grades one to six inclusive. It may be converted into a Permanent certificate after four years of successful teaching experience.

College Elementary Class C Certificate. A College Elementary Class C Certificate valid for a period of six years

may be issued to a person who has completed three years in the curriculum leading to the A.B. degree in elementary education. This certificate will authorize its holder to teach in grades one to six inclusive. It may be converted into a Permanent certificate after four years of successful teaching experience.

Term Special Subject Certificate. A certificate in a special subject such as music, art, manual training, and commercial branches valid for a period of six years may be issued to a recent graduate of a standard institution, the courses of which have been approved for the training of teachers of such subjects. This certificate may be converted into a Permanent certificate after four years of successful teaching experience.

School of Education Scholarships

In 1924 the School of Education granted two teaching scholarships. Since that time a larger number has been added. These scholarships pay school expenses for the time the student is in college. As a minimum requirement, the applicant must qualify for the Two-Year Professional Elementary certificate. Preference will be given to applicants who have had teaching experience.

The recipients of these scholarships assist the supervisors in the Training School, and pursue college courses not to exceed ten credit hours per semester.

The training furnished in the collegiate courses, and in the work in the Training School should fit the student upon graduation to enter the supervisory or administrative field.

Application for these scholarships should be made to the Director of the School of Education, Alabama College, Montevallo, Alabama.

Training School

By agreement, Alabama College conducts the elementary, junior high, and senior high schools for the town of Montevallo and Aldrich. In its present organization the Training School has three divisions: The elementary division comprising the kindergarten and the first six grades, the junior high school division comprising the seventh, eighth and ninth grades, and the senior high school division made up of the tenth, eleventh and twelfth grades. Pupils of this school are drawn from no special class, but are typical Alabama children from typical Alabama communities. This fact offers a supe-

rior advantage to college students in that it provides an opportunity for them to do their student teaching in a public school environment.

The Training School has a two-fold function. First, it maintains as nearly as possible an ideal elementary and secondary organization. Second, it trains college students in the theory and art of teaching. The Training School is planned on the theory that the best interests of student teachers and the best interests of the elementary and secondary pupils must be made to harmonize. Whatever interferes with the proper development of one interferes with the proper development of the other. Student teachers can be given the best training in the theory and art of teaching only in a Training School offering the best type of educational advantages to the pupils of the school. For this reason the interests and welfare of the elementary and secondary pupils are considered of primary importance.

The State Course of Study and the State Adopted Text-books are used in the Training School. The secondary department of the Training School is accredited by both the State Department of Education and by the Association of Colleges and Secondary Schools of the Southern States. These ratings place the high school department among the best high schools of the state. The Training School strives to lead in the state in the matter of up-to-date methods and equipment. Effort is made to maintain such standards of excellence in its work that it may at all times be offered as a demonstration of good teaching under conditions as nearly normal as possible in all respects. Untrained and unskilled teachers do not practice on the pupils. This problem is solved by having in each grade or subject a trained teacher, one chosen with the greatest care whose personality, native intelligence, and training fit him or her for the double duty of teaching children and of teaching student teachers to teach. The training teacher is at all time responsible for the entire work of his or her grade or subject.

The Training School offers observation, participation and student teaching facilities for those preparing for elementary teaching, secondary teaching, and the various special types of teaching including home economics, physical education, art, speech, piano, violin, and public school music.

Before being assigned to student teaching, a student must have senior class standing. The courses in methods should precede preferably, or parallel if necessary, student teaching in the elementary school. Methods of teaching a student's major and minor subjects should precede preferably, or par-

allel if necessary, the student teaching of these subjects in the high school. Directed observation in the elementary school must precede student teaching in this division and directed observation in the high must precede student teaching in this division. A student may teach in high school only her major and minor subjects. This presupposes that the student has an average of at least "C" in these subjects.

Placement Bureau

The School of Education conducts a Teacher Placement Bureau which places students or former students free of charge. The Bureau is handled very similarly to the commercial teacher agencies. The aim of this bureau is to put the school administrators and students or alumnae of Alabama College in touch with each other. In attaining this end, care is taken to avoid any partiality. The aim is to assure school administrators and prospective teachers real service from the Bureau.

The plan of the Bureau includes the following steps: In the spring of the year before teachers are elected, a list of all students available for teaching positions for the ensuing year is sent to the school administrators in Alabama. Following the name of each candidate is a description of her qualifications. (This has had the effect each year of placing practically all of the four-year graduates in teaching positions some time before the date of their graduation.) One feature of the plan that has contributed to its success is that of collecting confidential statements directly from the references named by the candidates. By having these confidential statements on file the Bureau can give immediate service to school superintendents and principals, by suggesting candidates and by sending school men an unbiased rating from persons who are qualified to judge of the teaching ability of the applicants. This service is free to all students and alumnae of Alabama College.

The Extension Division

Another line of service which is incorporated under the School of Education is the extension service. A new spirit pervades the American College of today. It recognizes it as a duty as well as a privilege, not only to instruct the students within its walls, but to serve the entire state as far as possible.

Alabama College, the state college for women, has a unique place in the educational program of Alabama; hence it wishes to project its influence and service into the com-

munities and homes as well as to train those who live on the campus. The following program was announced for the year 1929-30.

I. Home Study Courses—Many of the courses given at the college may be taken through correspondence by those meeting the requirements for such courses. Further information may be obtained from the Director of Home Study Service.

II. Program Service for Women's Clubs—Annual courses are organized by various faculty specialists in different fields which will be of interest to club women. This service is free. Additional information may be obtained from the Director of Home Study Service.

III. Study Center Courses—Whenever possible the college will meet requests of groups for a study course in any field given on the campus. This past year approximately 500 students took advantage of this work. These courses are open to teachers, club women, or any group of adults.

IV. Lectures, Recitals and Concerts—The college faculty numbers among its members lecturers, artists, and composers of wide reputation and acknowledged ability. These are available for a limited number of engagements. For terms and dates apply to the Director of Extension Service.

V. Bureau of Educational Information—From time to time Alabama College issues bulletins concerning special educational features here and elsewhere for the general information of the people of the state. As far as possible these bulletins will be mailed to any address on application.

VI. Field Work in Parent Education—A field worker in parent education is available from Alabama College for adult classes. Organized instruction is given on various problems of child training and parental education. Units such as the pre-school child, problems of adolescent and others are offered.

Announcement of Education Courses

Education 100. How to Study. The aim of this course is to introduce college students to effective methods of study and to help prospective teachers in instructing students. Elective. Credit, 1 hour.

Education 101. Personal Problems of the Student. Special emphasis on freshmen problems of study and personal

development. This course is divided into two units and is given in co-operation with the Sociology Department. The School of Education faculty will be responsible for the unit on problems of study while the problem of personal relationship will be handled by the Sociology Department. Required of freshmen in Home Economics Department. Credit, 2 hours.

Education 111-12. Introduction to Education. This is an orientation course, and takes up teaching as an occupation. It is divided into two units of one semester each. The first unit will take up the study of the different fields of teaching and the organization of the school system. The second unit of the course takes up the qualifications required in different phases and levels of teaching. Credit, 1 hour each semester.

Education 211-12. Educational Guidance. The aim of this course is to give a practical presentation of information regarding occupations open to college women—explaining what they are, the education and training, and the personal qualifications needed for engaging in them, financial returns, and outstanding advantages and disadvantages which one field may present in comparison with others. Elective. Credit, 1 hour each semester.

Education 220. Public Education in the United States. A discussion of the development of the American school system, its beginning and organization will be taken up. Elective. Credit, 2 hours.

Education 300. School Management. This course deals with the general classroom problems of the elementary teacher, including discipline, school records, school hygiene, etc. Credit, 2 hours.

Education 301. Principles of High School Teaching. This course takes up problems applicable to all high school teachers, such as discipline, class management, examinations, teachers' reports, and so forth. Required of all applicants for the College Secondary Class B Certificate, and all Special certificates to teach in high school. Open to all juniors. Credit, 3 hours.

Education 302. Psychology of High School Subjects. This course consists essentially in a discussion of what goes on in the minds of high school boys and girls, while in the process of learning the various subjects taught in the high school. The emphasis is placed upon what the learner does, rather than what the teacher does. Some of the topics discussed are: Maturity of the high school pupil, psychological

distinction between the elementary and high school child, psychology of mathematics, English, foreign languages, fine arts, practical arts, natural sciences, social sciences, physical education, and administration. The aim of the course is to acquaint the prospective teacher with method as applied to other subjects than her own, thus decreasing the likelihood of narrow formalism in teaching. Credit, 3 hours.

Education 311. Method of Teaching Reading in the Lower Elementary Grades. This course will deal primarily with the methods in the lower grades. However, a discussion of the reading in the upper grades will be included with less emphasis. Required of all students taking four-year elementary curriculum, preparing to teach in lower elementary grades. Credit, 2 hours.

Education 312. Methods of Teaching Social Science in Lower Elementary Grades. This course will take up the entire field of social science in the first six grades. The project work in the lower grades will be given most emphasis. Required of all students taking four-year elementary curriculum, preparing to teach in lower grades. Credit, 2 hours.

Education 321. Methods of Teaching Reading in the Upper Elementary Grades. This course will emphasize the teaching of reading and literature in the upper grades. Some discussion of the teaching of reading in the lower grades will be included. Required of all students taking four-year elementary curriculum preparing to teach in the upper grades. Credit, 2 hours.

Education 322. Methods of Teaching Social Science in the Upper Elementary Grades. This course will take up primarily the teaching of history and geography in the upper grades. A small amount of discussion will be given to the teaching of social science in the lower grades. Required of all students taking elementary curriculum who are preparing to teach in the upper grades. Credit, 2 hours.

Education 332. Methods of Teaching Arithmetic and Penmanship in the Lower Elementary Grades. The major part of this course will be given to the teaching of numbers. However, a small unit will take up the teaching of writing. Arithmetic in the upper grades will be discussed briefly. Required of all students taking four-year curriculum preparing to teach in the lower grades. Credit, 2 hours.

Education 342. Methods of Teaching Arithmetic and Penmanship in the Upper Elementary Grades. The em-

phasis in this course will be based upon the teaching of arithmetic in the upper grades. A small unit will be devoted to the teaching of penmanship. The teaching of number work in the lower grades will be discussed briefly. Required of all students taking four-year elementary curriculum, preparing to teach in the upper elementary grades. Credit, 2 hours.

Education 350.1. Methods of Teaching Art. A laboratory and lecture course for art majors preparing to teach. Required of all students specializing in the teaching of art. Credit, 2 or 3 hours.

Education 350.2. Methods of Teaching High School English. Required of all students taking the A.B. course in secondary education who are majoring in English. Also all students minoring in English must take at least two hours of the course. Credit, 2 or 3 hours.

Education 350.3. Methods of Teaching Foreign Languages in High School. Required of all students taking the A.B. course in secondary education who are majoring in foreign languages. Also all students minoring in foreign languages must take at least two hours in the course. Credit, 2 or 3 hours.

Education 350.4. Methods of Teaching History in High School. Required of all students taking the A.B. course in secondary education who are majoring in history. Also all students minoring in history must take at least two hours in the course. Credit, 2 or 3 hours.

Education 350.5. Methods of Teaching High School Mathematics. Required of all students taking the A.B. course in secondary education who are majoring in mathematics. Also all students minoring in mathematics must take at least two hours in the course. Credit, 2 or 3 hours.

Education 402.6. Methods of Teaching Music. Special methods course required of all students who are preparing to teach music in the public schools. See School of Music for credit.

Education 372.7. Methods of Teaching Physical Education in High School. Required of all students who are preparing to teach physical education in high school. Credit, 2 or 3 hours.

Education 350.8. Methods of Teaching High School Science. Instruction will be given in laboratory technique, ordering of materials, and methods of teaching the sciences

taught in Alabama high schools. Required of all students majoring or minoring in science. Credit, 2 or 3 hours.

Education 350.9. Methods of Teaching Speech. Required of all students minoring in speech, who are preparing to teach in the public schools. Credit, 2 or 3 hours.

Education 350.10. Methods of Teaching Secretarial Science. This course will take up the teaching of secretarial science. Required of students who expect to teach secretarial work in high school. Credit, 2 or 3 hours.

Education 361. Junior High School Problems and Methods. The objectives and organization of the junior high school are studied. Required of all students taking the A.B. curriculum in secondary education who are preparing to teach in junior high school. Credit, 3 hours.

Education 362. The Junior High School Curriculum. Subject matter and methods in selected subjects. Required of all students taking the A.B. curriculum in secondary education who are preparing to teach in the junior high school. Credit, 3 hours.

Education 370. Directed Observation in the Elementary School. This course is an introduction to directed teaching. There will be observation and discussion of the teaching of all of the elementary school subjects. Credit, 2 hours.

Education 380. Visual Education. This course deals with the importance of visual education in teaching. Instruction will be given in both the source and use of visual materials. Special emphasis will be placed upon the technique of the use of pictures, stereoptican slides, and motion pictures, as instruments of learning. Credit, 2 hours.

Education 390. Directed Observation in High School. This course will include observation and discussion of the more common high school subjects. Required of all students majoring in the A.B. curriculum for secondary education. Credit, 2 hours.

Education 400. Character Development. This course is a study of the growth of character through school activities, both curricula and extra-curricula. Open to juniors and seniors. Credit, 2 hours.

Education 401-2. Present Day Educational Problems. This course may be elected by students especially interested in research who are approved by the instructor. Various

modern problems will be taken up from a research angle. This will be of especial value to students who expect to do graduate work. Credit, 2 hours each semester.

Education 410. Extra-Curricula Activities. The following problems are among the more important studied in this course: School clubs, literary societies, dramatics, social functions, student participation in government, physical education, school publications, commencement, school lunch, national organizations such as boy scouts, girl scouts, etc. The training school is used as a laboratory for studying the practical operation of many of these activities. The philosophy underlying an extra curricula activity program is developed. Credit, 2 hours.

Education 411. Problems of the Music Teacher. This course is designed to deal with the problems of the music teacher in the public school, such as the problem of the correlation of music with other school activities, organization of music classes, objective testing of musical ability, etc. Credit, 3 hours.

Education 412. Educational Sociology. This course deals with the relationship of the teacher to society. The functions and objectives of the school are discussed. Credit, 3 hours.

Education 420. Vocational Guidance. This course aims to introduce to the student the problems of educational and vocational guidance by a rapid survey of the literature in the field, and to set up standards for a comprehensive guidance program such as is feasible in the high schools of Alabama at the present time. The Alabama program for guidance through occupational studies for boys and girls is studied as one unit of the course. Other general topics studied are: Vocational information and how the teacher may impart it, exploratory experiences as an essential feature of the junior high school program, vocational preparation, vocational counselling, and placement as a logical part of a comprehensive program of guidance. Open to juniors and seniors. Credit, 2 hours.

Education 421. Methods of Teaching Language and Spelling in the Upper Elementary Grades. Required of students taking A.B. course in elementary education who expect to teach in lower grades. Credit, 2 hours.

Education 431. Methods of Teaching Language and Spelling in the Upper Elementary Grades. Required of

students taking A.B. course in elementary education who expect to teach in upper grades. Credit, 2 hours.

Education 432. Test Construction. This course is based upon a recognition of the need for teachers who are trained in the technique of making the greater part of their own classroom tests, rather than depending upon standardized tests entirely. In this course large numbers of tests which have been prepared by teachers are examined critically in the light of modern methods of test construction. Criteria for desirable tests are then examined, and construction begun. The student selects from her major field one of the textbooks now in use in the high schools of Alabama, and prepares a set of classroom tests based upon the content of this text. Frequent conferences with the instructor enable her to work out tests which, by constant improvement after actual teaching has begun, will possess high validity and reliability. Prerequisite: Education 460 or 470. Open to seniors. Credit, 2 hours.

Education 440. Directed Teaching in the Elementary Grades. Required of all students who expect to apply for the College Elementary Class B Certificate. Credit, 4 hours.

Education 441. Securing and Holding a Teaching Position. This course takes up methods of getting in touch with teaching vacancies, and methods of application. The discussion of holding a position will be based upon professional and social adjustments. A good deal of emphasis will be given to professional ethics. Open to students expecting to teach the following year. Credit, 1 hour.

Education 450. Directed Teaching in the High School. Required of all students who are applicants for the College Secondary Class B Certificate. Students will not be permitted to teach in subjects in which their college grade has been below "C". Directed teaching must be done in major and minor subjects. Credit, 4 hours.

Education 460. Tests and Measurements in Secondary Education. This course is designed to give the student an understanding of the significance of modern testing procedures, and to furnish actual experience in administering tests and evaluating test results. Both old and new types of tests and examinations are studied, and the merits and demerits of each pointed out. Some time is spent on the theory of testing, including elementary statistical procedures and their application to classroom use. Some practice is given in the preparation of tests, as well as in giving tests and scoring papers. Open to seniors. Credit, 2 hours.

Education 470. Tests and Measurements in Elementary Education. Same as above.

Education 471. History of Education. This course will be centralized primarily around the history of modern times. Characteristics will be traced between modern times and earlier development. This course will be required of all students taking the four-year curriculum in elementary education. Open to juniors and seniors. Credit, 2 hours.

Education 472. School Administration. This course is adapted to the needs of students preparing for school attendance work. The relation of the county superintendent and county supervisor to the school attendance officer will be discussed. Credit, 2 hours.

Education 480. Vocational Education. This course is a study of vocations open to women. Credit, 2 hours.

Education 481-2. Elementary School Administration. This course will be open to a limited number of students who show special talent for this type of work. The course will give practical training by doing actual supervisory work in the county schools. This will be of special value to prospective elementary school principals and supervisors. Prerequisite: senior standing in the A.B. elementary course. Credit, 4 hours each semester.

Education 490. Principles of Education. This course is a summarization of the problems of teaching. An objective will be the formulation of a definite philosophy of education by each student. Required of all students in the A.B. curriculum of secondary education. Credit, 2 hours.

The School of Home Economics includes on its faculty well trained persons in the fields of child development, cloth-

ing and textiles, family relationships, food and nutrition, house planning and furnishing, household equipment, home management, institution economics, parent education and home economics teacher training.

In addition to the faculty of the School of Home Economics instructors in the departments of Art, Biology, Chemistry, Education, English, History, Modern Language, Music, Physical Education, Psychology, Secretarial Science, Religious Education, Sociology, and Speech, cooperate in the several curricula open to home economics majors.

Curricula leading to a major in the School of Home Economics are planned for those who wish to become proficient in homemaking; those preparing to teach vocational home economics, general home economics or junior high school home economics; those wishing to become dietitians; those interested in commercial home economics administration; those interested in home economics journalism; and those desiring to enter advisory and administrative department store work. The School of Home Economics offers three major curricula that may be adjusted to prepare a student for entering the above mentioned fields—Vocational Home Economics Education, Institution Economics, and Retail Merchandising. In the fall of 1932 another curriculum, Textile Designing, will be added.

The Vocational Home Economics Education Curriculum meets the requirements of a Vocational Home Economics certificate as outlined by the State Department of Education. Each student satisfactorily completing this curriculum will be issued a Vocational Home Economics certificate by the State Department of Education which provides the necessary requisite to teach in the vocational home economic high school departments of Alabama. This curriculum also gives the student a major in Science thus qualifying her to teach the Sciences in the Alabama High Schools. A major home project, planned and reported under faculty supervision, is also required of each student majoring in the Vocational Home Economics Education Curriculum. The Vocational Home Economics Education Curriculum presents an inclusive program of home economics courses and therefore gives the girl the fundamental knowledges that will be valuable to her as a future homemaker as well as providing her with training for a remunerative vocation for the "between" years. For the girl interested in Journalism there is no greater opportunity than in the field of home economics. The Vocational Home Economics Curriculum gives a student interested in Journalism the fundamental background necessary for home eco-

nomics journalism provided the student carefully selects available electives in English, and Home Economics. The student, who likes and knows how to write, will have many opportunities for using this vocation or avocation.

The Institution Economics Curriculum prepares the student for admittance to all "A" grade dietitian training hospitals as recognized by the American Dietetic Association. The term of training in these hospital training centers varies from six months to one year. This curriculum also provides training for the person interested in food administration work in colleges, school lunch rooms, commercial cafeterias, tearooms, and clubhouses. Supervised experience is provided through the college food department, the Montevallo public school system, and cooperating well established commercial groups. By careful selection of electives, conducting a major home project, and attendance of one six weeks summer school session after meeting the requirements of this curriculum a student may also secure a Vocational Home Economics Certificate.

The Retail Merchandising Curriculum offers training to the student interested in department store opportunities. Progressive department stores now include on their personnel, other than saleswomen, shoppers, clothing advisers, buyers, assistant buyers, and stylists. This curriculum offers courses that give the background necessary for this work and also provides supervised experience in one of the leading department stores of the South. Only a limited number of selected home economics majors will be permitted to enroll in this curriculum. This curriculum also provides the girl, interested and talented in either Costume Designing or Interior Decoration, with the fundamental background training for these vocations. By careful selection of electives, conducting a major home project, and attendance of one six weeks summer school session after meeting the requirements of this curriculum a student may also secure a Vocational Home Economics Certificate.

Other vocational fields open to home economics trained women, as provided by the curricula at Alabama College, include Cooperative Extension, Social Service and Commercial Home Economics Demonstration.

A Nursery School furnishes opportunity for the college students and parents of the nursery school children to observe the interests and responses of little children in their various activities as well as assisting in the nursery school program.

Closely related to this program in child development is the statewide parent education program that is carried on as

a cooperative project with the State Department of Education. A field worker in Parent Education is engaged full time in conducting parent education classes in a selected number of communities in the state.

Admission and Graduation

Each home economics curriculum is a four year course and requirements for enrollment in each curriculum is the same as for college admission. On satisfactory completion of any one of the home economics curricula, the students receive the Bachelor of Science degree.

Elective Courses Open to Other Than Home Economics Majors

A great many students majoring in other departments often wish to take a sufficient number of home economics courses to give them an appreciation and a working knowledge of home economics in its various aspects.

It is suggested that the Liberal Arts Curriculum (as noted on page 41) offers an excellent opportunity for meeting this need. By postponing freshman History or Mathematics to the junior year and using the remaining elective hours in the other three years, a student may elect a sequence of home economics courses through each of the four years to give her a sound and comprehensive appreciation of homemaking in all its relationships. This arrangement does not provide the student with necessary training for teaching home economics but only provides an opportunity for the student to secure information and training that will be of service to herself and family for immediate and future use.

The following sequence of courses is suggested:

Freshman Year

Purpose

The curriculum of the School of Music is designed to lay a thorough foundation in both theoretical and applied music, supplemented by a working background of general culture.

Admission

Admission is based upon the same requirements as admission to the college. The musical requirements for entrance which would permit the average student to meet the graduation requirements without work in addition to that prescribed for the regular sessions of the four year course are found in subsequent paragraphs.

Organization of the Curricula

The curricula are so organized as to present, first, a basic foundation of general culture; second, the essential musical foundation; third, opportunity to develop through definite courses the individual's special aptitudes in music. The student interested in teaching will find her needs outlined in the different curricula. The student with ability in composition may elect the appropriate courses. Those not inherently constructive can approach similar problems through the analysis courses. Election in the different fields of history and appreciation is designed to develop the general musical background.

Degrees

The Bachelor of Music degree is awarded upon completion of the general theoretical and academic requirements together with a major in which the required degree of advancement has been met. The following majors are offered: Composition, Teaching, Piano, Public School Music, Violin, Voice, Organ.

Students who satisfy the theoretical requirements and have one year beyond junior standing in applied music may, at the end of their fourth year, receive a certificate from the School of Music which will be translated into a degree upon satisfactory evidence that the standards of advancement have been met. No certificate or degree will be granted until after two years residence, except in the case of properly qualified adult students who have completed the equivalent of at least one year in residence.

Requirements for Graduation

Applied Music

The average student, to reach the standards set for graduation in the regular sessions of the four year course, should have achieved, in the majority of items specified, degrees of advancement indicated later under the heading, **Entrance Standards for Majors**. The standards indicating the desired degree of advancement at entrance are of necessity given a liberal interpretation. It is usually possible with the aid of summer sessions for the normal student who enters with a deficiency to meet the requirements set for the end of the second year in time to keep her college class. The meeting of the standards at the end of the second year indicates that normal progress will prepare in two more years for the graduation requirements.

Requirements for Graduation

Theoretical Subjects

In theoretical work a second course in harmony and a third course in sight singing and dictation is required for those who do not achieve the average grade of "C" in the preceding course. To insure that all graduates have a reasonable amount of work of advanced character each record with the exception of the vocal major must show 20 hours, at least, in theoretical music courses numbered above 300. The vocal course requires 15 hours in advanced theoretical music.

State Teachers Certificate

The following courses are placed in the various curricula as meeting the requirements for the Alabama State Teachers Certificate:

Bachelor of Music—Instrumental and Vocal. Psychology 211-212, 4 hours; Education, 301, 3 hours; Normal Training and Practice 401-402, or 411-412, 4 hours; Education 411-412, 6 hours; Public School Methods 301-2.6, 4 hours; Education 441, 1 hour. Total, 22 hours.

Bachelor of Music—Public School Music. Psychology 201-202, 6 hours; Education 411-412, 6 hours; Public School Methods 301-2.6, 4 hours; Public School Methods 401-2.6, 4 hours; Education 301, 3 hours; Practice Teaching 401-402, 4 hours. Total, 27 hours.

Those students who are expecting to go on to further professional study and are not depending on certification may omit the education hours substituting advanced courses in music and some academic work.

Recital

A senior recital is required of all instrumental and vocal majors. Those students who take a major in composition, while meeting the same applied music standards as the instrumental major, are not required to prepare a recital.

Recital Class

Attendance at the recital class is expected of all majors. Each student's major teacher includes the recital class as part of the student's major subject record.

Physical Education

Physical education is required throughout the four-year course. Not only does this add to the students' physical well-being, but the classes in dancing do much to develop the rhythmic perceptions. Music students, if they will make themselves known, will gladly be excused by the department from those games in which the fingers might possibly be injured.

Requirements for Graduation

Piano Requirements

For junior standing:

Bach, some three-part Inventions

Bach, at least two preludes and fugues from Well Tempered Clavichord

Bach, dance forms from French Suites and Partitas

Beethoven, sonatas or movements from sonatas, such as Op. 2, No. 1; Op. 14, Nos. 1 and 2; Op. 10, Nos. 1 or 2; Op. 26, etc.

Haydn, Sonata E flat, No. 3 (Schirmer), Sonata D major

Mozart, Sonatas Nos. 1, F major, or 16, A major (Schirmer Ed.)

Mendelssohn, Songs Without Words, such as "Spring Song," "Hunting Song," etc.

Liszt, "Liebestraum," transcriptions such as "On Wings of Songs," "Du Bist die Ruh."

Schubert, Impromptu B flat

Chopin, Polonaise C sharp minor, Valse E minor, Nocturne Op. 9, No. 2; Nocturne F minor, Op. 55, No. 1, Nocturne B major, Op. 31, No. 1

Schumann, Nocturne F major, Novelette F major, Fantasiestuecke, "Bird as a Prophet"

Some compositions by standard modern composers of corresponding difficulty.

The student should have passed Examination 6 in technic and have studied pieces of the moderate grade of difficulty. For graduation:

The candidate must have acquired the principles of tone production and velocity and their application to scales, arpeggios, chords, octaves and double notes. She must have a repertory comprising the principle classic, romantic, and modern compositions which should include such works as:

Bach, Chromatic Fantasia and Fugue, toccatas, organ transcriptions by Busoni, Tausig, Liszt, D'Albert

Beethoven, later sonatas such as Op. 53, 57, and a concerto

Brahms, Rhapsodie B minor, Sonata F minor

Chopin, ballades, polonaises, fantasie, barcorolle, scherzi, etudes, preludes and a concerto

Liszt, rhapsodies, Paganini Studies, transcriptions, a concerto

Schumann, Sonata G Minor, Faschings-schwank, Carneval, Concerto

Compositions by standard American and foreign modern composers such as MacDowell, Grieg, Rubinstein, Moszkowski, Debussy, Ravel, Rachmaninoff, and others.

Candidates must have had considerable experience in ensemble and should be capable sight readers.

Voice Requirements

For junior standing:

At the end of the second year the student should have acquired a knowledge of breath control, principles of enunciation, and pronunciation as applied to singing, and the essentials of interpretation. She should demonstrate her ability

to sing major, minor, and chromatic scales, arpeggii, contrasting exercises for agility and for sustaining tone, and the classic vocal embellishments. She should demonstrate a knowledge of recitative, and the ability to sing one or more of the less exacting arias of opera and oratorio and several standard songs from memory. She should also have acquired knowledge of one language in addition to English.

For graduation:

The candidate for graduation should demonstrate the ability to sing the more difficult arias of opera and oratorio in English and in two foreign languages, a knowledge of recitative in both the free and measured forms, knowledge of the general song literature and the ability to give a creditable recital.

The repertory for immediate use should consist of at least four operatic arias, four oratorio arias, twenty classic and twenty standard modern songs.

The candidate should have completed two years of ensemble singing; she must also have completed sufficient piano study to enable her to play accompaniments of average difficulty.

Organ Requirements

For junior standing:

At the end of the second year the student should have acquired the ability to play the following compositions or others of similar grade:

Bach (Peters Edition)

Vol. III. Prelude and Fugue, G minor

Vol. IV. Prelude and Fugue, G minor

Vol. V. Choral Preludes (selected)

Mendelssohn, Sonatas No. II, IV, V

Guilmant, Sonata No. IV

Hollins, Overtures C major—C minor

Compositions for the modern organ by standard American and foreign composers

She should also demonstrate ability in sight reading, in the accompaniment of the classic oratorios and masses, and in general service playing.

For graduation:

The candidate for graduation should have acquired ability in transposition at sight, open score reading and improvisation. She should have a large repertory of organ literature of all schools, classic and modern, of the degree of difficulty indicated by the following:

Bach (Peters Edition)

Book II. Fantasia and Fugue, C minor

Book II. Prelude and Fugue, B minor

Book IV. Prelude and Fugue, D major

Book I. Sonatas

Franck, Chorales, Piece Heroique

Widor, Symphony No. V

Guilmant, Sonata D minor, No. L

Vierne, Symphony No. 1

Compositions for modern organ of some grade of difficulty by standard American and foreign composers.

Violin Requirements

For junior standing:

At the end of the second year the student should have acquired the ability to perform works of the difficulty of the Viotti Concerto No. 22, the Spohr Concerto No. 2 and easier Bach sonatas for violin and piano.

The student should also give evidence of her ability to read at sight compositions of moderate difficulty, and should demonstrate sufficient ability in ensemble to take part in the performance of easier string quartets and symphonic works. She should have acquired sufficient pianistic ability to play simple accompaniments.

For graduation:

The candidate for graduation should show an adequate technical grounding in scales, arpeggi, bowing and phrasing, and the ability to perform works of the difficulty of the Mendelssohn E minor concerto, the Bruch G minor or Spohr No. 8.

During the four-year course the student should have had not less than two years of practical orchestral experience and two years of ensemble. She should have studied the viola sufficiently to enable her to play viola in ensembles.

She should further demonstrate adequate ability in sight reading and should be able to sight-read simple piano accompaniments.

Definitions of Standards of Attainment and Other Requirements

Bachelor of Music Degree—Instrumental

General. Applying to all instrumental courses.

The instrumental courses are organized primarily with teacher training in mind. Therefore the necessary education courses qualifying the student for the state teachers' certificate are included. Other musical and certain academic subjects may be substituted if the certificate is not desired.

The definite standards of attainment in applied music are indicated elsewhere. Each completed course must show at least twenty hours in theory courses numbered over 300.

A student taking Composition 401-402 with its prerequisites and meeting all other requirements of the instrumental course is considered a composition major and may be excused from the senior recital. A second instrument or voice may be studied dividing the time assigned to applied music.

Organ

The average student wishing to major in organ will usually profit most by a year of piano in college. The Director will judge when the preparation is adequate to begin the study of organ. The organ major's course must show at least four hours in the regular ensemble class, the other four hours may be taken in chorus, glee club, or orchestra. If at all possible, the organ major should also work out a composition major.

Piano

Four hours of ensemble work must be done in the formal courses. The other four hours required may, at the choice of the student, be satisfied in the chorus, glee club, or orchestra at the rate of one hour a semester.

Violin

The violin student, beginning at entrance, must take piano until her record shows four hours taken in course and she has developed ability to sight read simple accompaniments. Ability to play the viola in ensembles is required at

graduation. The completed record must show at least four hours in the orchestra in addition to eight hours in the rhythm, phrasing and ensemble class. Ordinarily the hours assigned in applied music will be violin, two hours, and piano, one hour.

Bachelor of Music Degree—Public School Music

In voice the minimum degree of advancement acceptable for graduation is that prescribed for the voice major at the end of the second year.

In piano the minimum degree of advancement acceptable for graduation is that suggested for entrance to the piano major course.

The hours in voice and piano may be interchanged by the Director to meet the needs of the individual.

At least four hours in ensemble, either in the formal courses or in the glee club, chorus, or orchestra, must be presented for graduation.

A comprehensive examination in general musicianship covering the work in theoretical music (other than education and methods) and applied music will be required. The examination will be held by the Director, assisted by two faculty members.

Bachelor of Music Degree—Voice

The record at graduation must show at least six hours of piano in course and the ability to play ordinary accompaniments must be demonstrated.

The hours in ensemble are best taken in the glee club or chorus.

Certain academic and music courses may be substituted for the education courses by those who do not wish the state teachers' certificate.

Applied Music

Examinations

Semester examinations are held in all applied music subjects at the end of each semester according to the following outline. The examinations are numbered consecutively. No. 1 is held privately with the teacher; No. 2 to 4 with the faculty of the special department, and the director; No. 5 up with the entire staff.

The material of the examination consists of special technical requirements fixed by each department, together with the performance of an assigned composition. This composition is to be prepared without assistance within a prescribed time limit. It is not necessary that the composition be memorized. The performer is concealed from the examiners. The particular points to be valued in the performance are found below. The average grades of the faculty or department will count one-third of the total grade for the semester.

Factors to be Valued in Applied Music Examinations:

Quality of Tone

Tone suited to character of composition, varied, and produced fluently even under technical and emotional stress.

Rhythm

Adequate basic pulsation suited to character of composition and to the means of performance. Accelerandos, ritards, and rubatos consistent in variation.

Phrasing

Figures, phrases, and larger elements of structure made sufficiently vivid to support consistently the character of the composition.

Dynamics

Climaxes of phrase, section, and whole composition with contrasts and gradations suited to character of composition.

Artistic Unity

Coordination of all elements inspired by conception of composition as a unity of emotional purpose.

Diction (Vocal)

Unrestricted projection of song in moderately sized auditorium so that content is fully grasped by auditor even in passages of technical and emotional intricacy.

Intonation (Vocal, Strings, and Wind)

No deviations of a disturbing nature.

***Entrance Standards for Majors**

*See Requirements for Graduation.

Organ

The student should have completed sufficient piano study to enable her to play some Bach inventions, Mozart sonatas, easier Beethoven sonatas, compositions by Mendelssohn, Grieg, Schubert, Schumann, etc.

Piano

The student should be grounded in correct touch and reliable technique. She should play all major and minor scales correctly in moderately rapid tempo, also broken chords in octave position in all keys and should have acquired systematic methods of practice.

She should have studied some of the standard etudes, such as Czerny, Op. 299, Book 1; Heller, Op. 47 and 46 (according to the individual needs of the pupil); Bach, Little Preludes; a few Bach two-part Inventions and compositions corresponding in difficulty to

Haydn, Sonata No. II, G major No. 20 (Schirmer)

Mozart, Sonata C major No. 3, F major No. 13 (Schirmer)

Beethoven, Variations on Nel cor Piu, Sonata Op. 49, No. 1

Schubert, Impromptu Op. 142, No. 2, etc.

Violin

The student should have an elementary knowledge of the pianoforte. She should have the ability to perform etudes of the difficulty of the Kreutzer Etudes, Nos. 1 to 32, and works of the difficulty of the Viotti Concerto, No. 23, the de Beriot concerti, Nos. 7 and 9, and the Tartini G minor sonata.

Voice

The student should be able to sing on pitch with correct phrasing and musical intelligence standard songs in good English (the simpler classics are recommended). She should also demonstrate her ability to read a simple song at sight and a knowledge of the rudiments of music. Some knowledge of piano is urgently recommended.

Courses in Theoretical Music

Music 101, 102. **Sight Singing.** Elementary theory, its perception and reproduction in sound. Scales, modes, intervals, rhythm. Three hours a week. Credit, 1 hour.

Music 201, 202. **Sight Singing.** Continuation of Course 101, 102. Three hours a week. Credit, 1 hour.

Music 101, 102. **Ear Training and Dictation.** Elementary theory, its perception and recording. Scales, modes, intervals, chords, rhythm. Two hours a week. Credit, 1 hour.

Music 201, 202. **Ear Training and Dictation.** Continuation of Course 101, 102. Modulation, exercises in four parts. Two hours a week. Credit, 1 hour.

Music 221, 222. **Sight Singing and Dictation.** Required of those who pass 201, 202 with less than a "C".

Music 101, 102. **Harmony.** Tonality, its perception, its establishment and notation, melody writing and harmonization, figured bass; modulation, foreign tones, altered and augmented chords. Four or five hours a week at the discretion of the teacher considering individual cases. Credit, 5 hours.

Music 111, 112. **Harmony.** A continuation of the drill afforded in Music 101, 102. Required if Music 101, 102 is passed with less than "C". Three hours a week. Credit, 3 hours.

Music 251. **Tonal Counterpoint.** Evolution of contrapuntal method from preceding harmonic experience; the invention. Prerequisite: Music 101, 102, or Music 111, 112, with a grade of at least "C." Text: Spaulding. Two hours a week. Credit, 3 hours.

Music 352. **Strict Counterpoint.** A survey of the more conventional approach to counterpoint and its application to the problems of canon and fugue. Prerequisite: Music 251. Text: Pearce. Two hours a week. Credit, 3 hours.

Music 301, 302. **Composition.** Vocal writing. Short solo and choral settings; instrumental three-part song form, sonatina. Prerequisite: Music 251. Two hours a week. Credit, 3 hours.

Music 401, 402. **Composition.** This course with its prerequisites offers opportunity to complete a major composition. Fugue in five sections, with the usual contrapuntal devices, a composition in sonata form for one or more instruments; songs or instrumental compositions in the lesser forms. The scoring of an orchestral composition (not necessarily original). Prerequisite: Strict Counterpoint and Instrumentation. Two hours a week. Credit, 3 to 5 hours.

Music 201, 202. **Keyboard Harmony.** An application of harmonic knowledge to the piano keyboard. Prerequisite: Examination No. 5 in Piano and Music 101, 102 with a grade of at least "C." Text: Wedge. Two hours a week. Credit, 2 hours.

Music 251. **Structural Analysis.** Homophonic and contrapuntal forms, together with a consideration of the structural details of composition. Prerequisite: 101, 102. Two hours a week. Credit, 2 hours.

Music 252. **Harmonic Analysis.** Analytical study of the harmony of Wagner, Franck, and a contemporary composer. Prerequisite: 102. Two hours a week. Credit, 2 hours.

Music 301, 302. **Rhythm, Phrasing and Ensemble.** Application of rhythmic and structural knowledge to group performance, accompaniment. Prerequisite: Examination for junior standing. The fundamental principles of this course will be presented by the Director, who will assign groups for the study of definite compositions to different members of the faculty. One two-hour period a week and practice. Credit, 1 or 2 hours.

Music 401, 402. **Rhythm, Phrasing and Ensemble.** Continuation of 301, 302. One two-hour period a week and practice. Credit, 1 or 2 hours.

Music 301, 302. **Instrumentation and Orchestration.** The theory and its application in scoring. Prerequisite: Music 252. Two hours a week. Credit, 2 hours.

Music 301, 302. **Wind and String Pedagogy.** Practice with the "key" instruments of each section of the orchestra and band. Procedure in forming an orchestra or band, tuning, the technique of rehearsal. Prerequisite: 252. Two hours a week. Credit, 2 hours.

Music 401, 402. **Wind and String Pedagogy.** Continuation of Music 301, 302. Prerequisite: 301, 302. Two hours a week. Credit, 2 hours.

Music 401. **Conducting.** Psychology of rhythm, mechanics of rhythmic indication, structural analysis and its indication, score reading, choral problems, diction and its indication. Prerequisites: two hours Ensemble. Two one-hour-and-a-half periods a week. Credit, 2 hours.

Music 401. **Modern Harmony and Advanced Analysis.** Text: Hull. One hour a week. Credit, 1 hour.

Music 401, 402. **Normal Training and Practice.** The teaching of the private lesson for the beginning and elementary student. Prerequisite: junior standing in major applied music subject. Credit, 2 hours.

Music 411, 412. **Normal Training and Practice.** The teaching of the class lesson for the beginning and elementary student. Prerequisite: junior standing in major applied music subject. One lecture, two teaching periods a week. Credit, 2 hours.

Music 311. **Appreciation.** A non-technical study, for purposes of constructive listening of representative masterpieces of musical literature. Training in the perception of rhythm, harmonic effects, structure and form. This course is exempt from the extra hour music fee of the B.A. and B.S. courses. Two hours a week. Credit, 2 hours.

Music 312. **Appreciation.** A non-technical study continuing the training of Music 311, yet stressing the art-form in the light of psychological and philosophical principles with constant reference to the materials of musical literature. This course is not dependent upon Music 311, but may be taken separately with profit. This course is exempt from the extra hour music fee of the B.A. and B.S. courses. Two hours a week. Credit, 2 hours.

Music 401. **Psychology of Music, Aesthetics.** The conditions of congruent reaction to musical elements or factors. Artistic purpose related to such relations. An effort to coordinate and organize the study of the preceding years, and formulate an individual philosophy. Text. Puffer. Two hours a week. Credit, 2 hours.

Music 402. **Books and Musical Study.** A survey of musicology; the library and its relation to further study after graduation. One hour a week. Credit, 1 hour.

Music 201, 202. History of Music. An historical survey of the evolution of those musical forces which are directly effective at present. Three hours a week. This course is exempt from the extra hour music fee of the B.A. and B.S. courses. Credit, 3 hours.

Music History and Appreciation. The following subjects will be offered in semester courses by different members of the faculty. The method will be a combination of the historical and appreciative approaches. The particular courses to be offered will be arranged as far as possible to meet the needs and interests of the particular groups of students needing work in this department. These courses are exempt from the extra hour music fee of the B.A. and B.S. courses.

STUDENT ACTIVITIES

The Alabamian

The Alabamian is a school publication issued once every two weeks and a quarterly literary magazine. In it are expressed the various interests and activities of the college. The first issue of the Alabamian was published in November, 1923. The staff for 1931-32 has not yet been selected.

Alpha Kappa Gamma Club

The Alpha Kappa Gamma Junior Home Economics Club was organized in the spring of 1930. It is the professional organization for all home economics students at Alabama College. Its purposes are to stimulate interest in home economics and to develop professional and social spirit among its members. Programs dealing with pertinent subjects are presented monthly. It is affiliated with the American Home Economics Association and attempts to follow the program as suggested by this organization.

The officers for 1931-32 are: President, Sara Blair; Vice-President, Elizabeth Nolen; Secretary, Christine Duncan; Treasurer, Willie Mae Garrett.

Alpha Pi Omega Club

The Alpha Pi Omega Club was established in 1923 and has for its object the establishing of lasting friendships between its members and the promotion of social life. At present there are twenty active members.

The officers for 1931-32 are: President, Sara Weatherby; Vice-President, Louise Walsh; Secretary, Elsie Culpepper; Treasurer, Elsie Spearman.

Alumnae Association

The Alumnae Association was organized in May, 1902. Its membership is open to graduates and to any former student who has done as much as nine months' residence work at the institution, upon payment of the prescribed dues, \$1.00 annually.

The object of the Association is to foster the ties formed during school days, and to assist in promoting the interest of Alabama College, its graduates and former students.

The organization maintains two loan scholarships of \$125.00 each, one of which will be available for the session of 1931-32.

Those who are eligible for membership are requested to send their dues and their correct current addresses to the Secretary, at Montevallo, by the first of May each year.

Officers for 1931-32 are: President, Mrs. Marion Walker Spidle (1916); First Vice-President, Mrs. Tettie Henley-Henry (1903); Second Vice-President, Lockie Posey (1908); Third Vice-President, Nena McDuffie (1925); Fourth Vice-President, Mary Kate Derby (1928); Secretary, Flora Belle Surles (1915); Treasurer, Mrs. Charlotte Warner Peterson (1916); Historian, Eloise Frost Lee (1929).

Art Club

The Art Club of 1930-31 has been made up of girls who have successfully tried out and been deemed eligible by the club to become members. In 1931-32 the present club will be disbanded and an Art Club of art majors will be organized with the faculty of the Art Department taking an active part.

The officers for 1931-32 are: President, Annie Seay Owen; Vice-President, Kate Sobotka; Secretary-Treasurer, LaVonne Bouldin.

Athletic Association

The Athletic Association seeks to interest every student in some phase of out-door recreation, giving her an opportunity to contribute her part to the school life through basketball, volley ball, hockey, hiking, baseball, tennis, swimming, and other sports.

Through its executive board, the Athletic Association arranges intra-mural games, sponsors camp activities, tennis tournaments, swimming meets, play days and field days, and promotes sport spreads after each sport season when honorary varsities are announced.

The Association offers each year a silver loving cup to the class winning the all-year championship for excellency in athletics.

The College Camp was planned by the Association and the Board has assumed responsibility for the upkeep of the camp house, although any girl or faculty member may use the camp.

The "AC" Club, a branch of the Athletic Association, is open to students making the required number of points in the various athletic activities.

The officers of the Association for 1931-32 are: President, Dora Little; Vice-President, Eugenia Morrow; Secretary, Mamie Chandler; Treasurer, Beth Wallace; Publicity Chairman, Barbara LeBaron.

Beta Sigma Delta Club

(Established 1923)

The Beta Sigma Delta Club is a member of the State Federation of Women's Clubs. Its purpose is to promote a better and more democratic social life at Alabama College, and its aim is to strengthen and develop truer bonds of friendship.

The officers for 1931-32 are: President, Josephine Ford; Vice-President, Pauline Marsden; Secretary, Frances McMillan; Treasurer, Abby Lou Sherer.

Calkins Music Study Club

The Calkins Club is designed to promote the social enjoyment of its members and to aid in the stimulation of general appreciation of music upon the campus.

The officers for 1931-32 are: President, Elizabeth Hawkins; Vice-President, Maxine Couch; Secretary, Ala Mae Hudson; Treasurer, Nellie Rae Sledge.

Castalian Club

(Established 1900)

The Castalian Club endeavors to enrich and complete the college life of its members, and by forming lasting friendships to strengthen their loyalty to the Alma Mater. Meetings are held weekly; the varied and interesting programs of the past year have been attractive as well as instructive.

A loan scholarship of \$100 has been established for the use of an active member.

The officers for 1931-32 are: President, Mary Evelyn Jones; Vice-President, Lenice Vaughan; Secretary-Treasurer, Elizabeth Hathcock.

Delta Phi Alpha—Mu Chapter

This is a newly organized chapter of the national honorary German fraternity for the purpose of promoting interest in the German language and German culture.

The officers for 1931-32 are: President, Virginia Pfaff; Vice-President, Lenice Vaughan; Secretary, LaVonne Bouldin; Treasurer, Kathleen Jenkins.

The Dramatic Club

The College Dramatic Club was organized in the fall of 1921, with the teachers of Expression and Oral English as the directors. Members are elected by judges who decide upon

the ability shown in public try-outs each year. At least one public performance is given at the College during each semester, and sometimes these are repeated in towns nearby and cities in the State.

The officers for 1931-32 are: President, Virginia Brannon; Vice-President, Dorothy Davies; Business Manager, Marjorie Goff; Stage Manager, Claudia Schwoon.

Elementary Council

The Elementary Council of Alabama College is a campus organization affiliated with the National Council of Elementary Education. The membership is open to teachers, supervisors, principals and all persons interested in the educational problems of the kindergarten and the first six years of childhood education.

The officers for 1931-32 are: President, Mary Agnes Lawler; Vice-President, Mildred Allen; Secretary-Treasurer, Ellen Hutto; Reporter, Frances Reid.

Glee Club

The Glee Club exists for the purpose of the study of choral music of all periods and schools. Besides its programs in Montevallo, the Glee Club gives concerts in other towns of the State. Membership is open upon examination to any student in the college.

The officers for 1931-32 are: President, Kate McConaughy; Business Manager, Elsie Culpepper; Secretary-Treasurer, Elizabeth Powell; Librarian, Frances Middleton.

Home Economics Club

This is an honorary club in Home Economics, organized November 6, 1920, for the purpose of stimulating interest in home making. Eligibility to this club depends on leadership and a scholastic standing of a B average in all work.

The officers for 1931-32 are: President, Clemmie Jane Heald; Vice-President, Currie Cumbie; Secretary-Treasurer, Elizabeth Bullock.

Kappa Delta Pi—Beta Lambda Chapter

Kappa Delta Pi is a national honorary educational society. Its purpose is to maintain the highest educational ideals and to foster fellowship, scholarship, and achievement in education work. To wear a Kappa Delta Pi key is a goal which all under-classmen may seek as the highest honor an Alabama College student may obtain.

Officers for 1931-32 are: President, Dorothy King; Vice-

President, Josephine Mizell; Recording Secretary, Jessie Mauldin; Corresponding Secretary, Flo Fraley; Treasurer, Lucile Powell; Reporter, Eugenia Morrow; Counselor, Dr. Katherine Vickery.

Kappa Sigma Phi Club

The purpose of the Kappa Sigma Phi Club is to further the social development of its members and afford opportunities for the worthy use of leisure time. Meetings are held semi-monthly in which the members participate in some phase of social activity.

The officers for 1931-32 are: President, Thelma Hill; Vice-President, Bernice May; Secretary, Bessie Lee Combs; Treasurer, Norma Roberts.

Mathematics Club

The Mathematics Club was organized on February 26, 1923, for the purpose of studying mathematics and certain related subjects chosen by the club. This organization has proved to be both interesting and profitable.

The officers for 1931-32 are: President, Lucile Cory; Vice-President, Lucia Cleveland; Secretary-Treasurer, Lucile Rogers.

Musical Council

The object of the Musical Council is the promotion of cooperation among the four campus musical organizations and through coordinated efforts to further the cause of good music on the campus.

The officers for 1931-32 are: President, Kate McConaughy; Vice-President, Dudley Bell; Secretary-Treasurer, Evelyn Collins.

Orchestra

The Orchestra is made up of the students of the School of Music and those students of the college who are accepted by the director of the orchestra after examination. The Orchestra is devoted to the study of symphonic music.

The officers for 1931-32 are: President, Dudley Bell; Vice-President, Margaret McElroy; Secretary-Treasurer, Ruth LeBaron; Stage Manager, Barbara LeBaron.

Phi Delta Sigma Club

The Phi Delta Sigma Club has made rapid progress in the last few years. Meetings are held every two weeks in which important phases of social life are discussed.

The officers for 1931-32 are: President, Ellen Hutto; Vice-President, Elizabeth Hicks; Secretary, Emma Lee Hafner; Treasurer, Jessie Lee Rains; Reporter, Frankie Riley.

Philomathic Club

(Established 1908; Federated 1924)

The Philomathic Club was established in 1908 for the purpose of the literary and social development of its members. With the introduction of other literary societies into the school, the purpose of this club has been changed from literary to social.

The club maintains one scholarship of \$115.00 to be used by one of its active members.

The officers for 1931-32 are: President, Bido Purvis; Vice-President, Maiben Hixon; Secretary, Sara Bonner; Treasurer, Dorothy Day.

Physical Education Club

The Physical Education Club is composed of students majoring in Physical Education. Through the club the girls become better acquainted with each other and with the problems and recent tendencies in their major field. The club works in close cooperation with the Physical Education Department in developing a professional spirit among its members.

The officers for 1931-32 are: President, Eugenia Morrow; Vice-President, Winnie Mae Toomer; Secretary-Treasurer, Eula Thorn.

Scribblers' Club

(Organized and Federated 1924)

The object of this club is to foster the literary talent of the students of Alabama College through study and companionship.

The officers for 1931-32 are: President, Elizabeth Kilgore; Vice-President, Annie Lera Strickland; Secretary, Clara Crenshaw.

Secretarial Club

The Secretarial Club was organized on January 15, 1924, for the purpose of furthering interest in the Secretarial Department, to promote business efficiency, and intellectual development. The membership is open to all registered secretarial students of the College.

The officers for 1931-32 are: President, Marjorie Goff; Vice-President, Bernice Cobb; Secretary-Treasurer, Helen Hawkins.

Social Service Club

This club was organized April 27, 1928. Its object is to arouse and foster an interest in the art of helping people out of trouble; to familiarize the members with the scope and nature of social work, its problems and practices; to widen the social contacts of the students interested in Social Service.

The officers for 1931-32 are: President, Margaret Harrison; Vice-President, Pattie Thomas; Secretary-Treasurer, Jack Mitchell.

Student Government Association

Each student becomes a member of the Student Government Association, after having passed examination on the student hand book. The management of this Association is vested in an Executive Board.

The duties of the Board are three-fold: Executive, judicial, and legislative. All matters of discipline coming within the limits of the authority of the Association are considered by the Board.

The ideal of the Association and the goal toward which it is constantly striving is complete self-government for each student in the college.

The legislative duties are now largely turned over to the Student Senate which is described below.

The officers for 1931-32 are: President, Margaret Allen Wallis; Vice-President, Martha Ford; Secretary, Effie Cowan; Treasurer, Margaret Poindexter.

Student Senate

A group, entitled the "Student Senate," was called into being by the Executive Board in March, 1925. This body is composed of twenty seniors, fifteen juniors, twelve sophomores, and ten freshmen. The object of creating this new organization was to divide responsibilities and to give a larger number a responsible part in student government.

The aim of the organization is to foster the highest type of college spirit, to preserve the best traditions of the college, and to raise the standards and ideals along all lines of development at the college.

The officers for 1931-32 are: President, Hasseltine Stallworth; Vice-President, Jewel Martin; Secretary, Thelma Hill; Treasurer, Margaret Hartung.

Technala

Since 1907 the Technala has been published annually by students of the College. It is an expression of the various activities of the College.

The officers for 1931-32 have not yet been selected.

Julia Strudwick Tutwiler Club

(Established 1901; Federated 1923)

The club holds a scholarship of \$115, which is lent to one member each year to be repaid the following year.

The officers for 1931-32 are: President, Terry Broadus; Vice-President, Virginia Brannon; Secretary, Margaret Coley; Treasurer, Aileen Jones.

Zeta Pi Delta Club

Although the Zeta Pi Delta Club is comparatively new, it has already become a member of the State Federation of Women's Clubs. The club endeavors to enrich the social and literary development of its members and to instill in them the value of self-government.

The officers for 1931-32 are: President, Dorothy King; Vice-President, Cherokee Shirley; Secretary, Lena Mae High; Treasurer, Martha Sparks; Critic, Marjorie Jones.

Y. W. C. A.

The Young Women's Christian Association, through its social life, Bible and mission study, religious meetings, and Association relationships, seeks to promote right living in the school community and to train students for Christian work. The work of the Association begins with welcoming new students and with being hostess at many and varied social functions. The Association creates a spirit of friendliness and fellowship throughout the entire student body.

The Association is a part of the South Central Field and is affiliated with the National Board of Y. W. C. A. of America. It is visited by field secretaries, and delegates are sent to the National Convention of the Y. W. C. A. and to the Southern General Conference at Blue Ridge, N. C. Through the Association relationships, the students are brought into touch with the larger movements among students in the South, the nation, and the world.

"Morning Watch"—a short prayer service—is held each morning after breakfast, and vesper services are held on Thursday and Sunday evenings. These meetings give students an opportunity for worship, instruct them about Chris-

tian service that is being done all over the world, and train them for leadership. One Thursday vesper service each month is devoted to denominational group meetings, where each student may study the organization and problems of her own church.

Some of the interesting features of the Y. W. C. A. are: Maintaining the Tea-Room, the Employment Bureau, and the Big Sister Organization. The Employment Bureau endeavors to secure employment for students desiring to make pin-money. The Big Sister Organization enlists all of the former students in welcoming the new girls. As each student enrolls, she is assigned a "Big Sister," who takes a personal interest in helping her to make the right adjustment to college life.

The officers for 1931-32 are: President, Sara Stevenson; Vice-President, Leota Butler; Secretary, Jewel Martin; Treasurer, Effie Cowan.
